## 62 YEARS' WAITING

### Renfrew Road Claimed Asset To All Island

Coast Settlers Still Optimistic;  
Hold Hope Still for Ocean Port

(Times Reporter Humphrey Davy and a Queen's Scout companion, West Umphrey, have just completed a nine-day exploration tour along the route of the proposed West Coast road. Sponsored by the Victoria Times, the pair set out with a view to ascertaining the feasibility of the road project, to familiarize themselves with the contours and scenery of what is almost an unknown country and to report. This is the fourth of a series of stories of their adventure.)

By HUMPHREY DAVY, Times Staff Reporter

The coastal territory between Jordan River and San Juan Point which West Umphrey and I traveled through on our hike up the West Coast is not exceptional in scenery. We found it differed little from the coast near Victoria and cannot boast of any superior beaches.

## Mayor Lauds West Coast Road Series

Development Held  
Vital to Island

Articles by Humphrey Davy, Victoria Daily Times staff reporter, on his recent nine-day exploration tour on foot along the route of the proposed West Coast road, should be read by "every member of the public," Mayor Claude Harrison said today.

"It is an excellent series and I highly commend the articles to anyone interested in the development of Vancouver Island," the mayor said.

Long an advocate of the West Coast road, he said the development of the area was "vital" to Vancouver Island. "I have been over that area time and time again," said the mayor, who is a well-known hiker and woodsman. "I have reports which prove what Mr. Davy and his companion, West Umphrey, found, to the effect that a road and bridges in the area are feasible."

## Townsend in London, Margaret in Scotland

LONDON (CP)—Group Captain Peter Townsend flew to England today for his first visit since July when he was sent to Brussels as British air attaché. Princess Margaret, with whom Townsend's name has been linked romantically, is at Balmoral, Scotland, with other members of the Royal Family. Townsend is here for air ministry talks with air attaches of other British embassies.

## Republicans Elated Over Budget Report

WASHINGTON (UP)—Administration officials were elated today by an up-to-date budget report showing that the Republican economy drive has slashed \$6,100,000,000 from the prospective federal deficit for fiscal 1954.

In a new review of income and spending, the budget bureau estimated the government would cost \$3,800,000,000 in the red for the year ending next June 30. That compares with a deficit of \$9,900,000,000 forecast by former President Truman before he left office last January.

It also represents a substantial improvement in the budget outlook since May, when President Eisenhower estimated the deficit at \$5,600,000,000.

The budget review estimated government spending for the year at \$72,100,000,000—\$6,500,000,000 below former President Truman's January estimate, and

\$2,000,000,000 below Mr. Eisenhower's May estimate.

Secretary of Treasury George M. Humphrey hailed revised estimates as "very good news." He said the new figures mean "we have turned the corner" in the struggle for a balanced budget, but he declined to speculate on the possibility of a balanced budget next year "until we get the facts."

Part of the "good news" is that it will not be necessary to call Congress into special session this fall to boost the debt limit. The new figures estimate that the national debt at the end of this fiscal year will be \$271,000,000,000—\$3,000,000,000 below the present limit and some \$2,000,000,000 less than President Eisenhower had estimated in his last-minute appeal to Congress to boost the debt ceiling before it adjourned last month.

## RAMMER CAUGHT?

HALIFAX (CP)—Weary after a four-hour battle, two fishermen from nearby Eastern Passage came home Thursday night towing a half-ton, 12-foot ocean monster that was still alive and flipping.

## Convention Issues Tip Coupons

It's only a piece of paper, but it's as good as money in the bank, life insurance salesman Sol Minzer, Dallas, might be explaining to waitress Rhoda Erickson of the Empress Hotel Coffee Shop. Minzer is attending the conven-

tion of California-Western States Life Insurance Company, which has issued "tip coupons" to all men registered, to make sure hotel staff is not neglected when tips are called for. (Times Photo by Strickland.)

## TIPPING MADE PAINLESS

### Conventioners Get Tokens for Tariffs

Tipping will be no problem for 300 U.S. insurance men when they hold their annual convention in Empress Hotel this week end.

The company sponsoring the convention, California-Western States Life Insurance Company, has arranged to guarantee distribution of more than \$900 in tips to the hotel staff.

"Proper and adequate tipping is an important element in hotel service," says a convention booklet prepared by the company. "Hotel employees expect tips."

To make sure the employees get them from the conventioners, California-Western States has printed "tip coupons" in booklets of \$3.30, and a booklet has been issued to each man registered. The coupons are clearly marked as to amounts and recipients; for instance, a 20-cent coupon is designated "Waiter."

Cash to cover the coupons has been deposited with the hotel cashier, where employees can exchange their vouchers for coin of the realm.

Visitors are members of the company's El Capitan club for high-ranking insurance agents.

## No Sympathy Walkout by Coast Seamen

VANCOUVER (BUP)—Norman Cunningham, West Coast representative of the AFL Seafarers' International Union, said today that West Coast seamen were 100 per cent behind eastern seamen in their demands for higher wages and shorter working hours, but there would be no sympathy strike here.

Cunningham was commenting on the threatened strike of some 8,000 seamen who would take an SIU strike vote Monday to back demands for a 40-hour week, and \$50 monthly pay boost.

"We definitely will not go out on a sympathy strike," said Cunningham.

MONTREAL (BUP)—Operators of 200 freighters plying the Great Lakes were reported "unconcerned" today at a strike threat posed by the AFL Seafarers' International Union, which could tie up 99 per cent of Canada's inland shipping.

The shipowners were said to be ready to "sit out" any walkout by the 8,000 SIU seamen who will take a strike vote Monday in eight key cities coast to coast.

## Ont. Truckers Accept Pact, Strike Ends

WINDSOR, Ont. (BUP)—Trucks rolled over western Ontario highways again today as the AFL Teamsters' Union voted to accept a compromise wage pact ending a six-week strike by 1,500 drivers.

The agreement, reached in Labor Minister Charles Daley's Toronto office Thursday, was presented to the Hamilton drivers and quickly received ratification.

Under the agreement, the truckers will receive \$1.43 an hour. The increase was a package offer of 20 cents an hour on a 2½-year contract, and included a mileage boost of ½ cent a mile. The settlement was seven cents more than the companies offered and two cents less than the union's final demand.

"It is one of the most far-reaching decisions in recent years," an American informant said.

Under the agreement, effective next Tuesday, the Austrian government will be given control of internal and international postal, telegraph, telephone, radio and teletype communication.

## Austria to Gain Control of Own Communications

VIENNA, Austria (UP)—The four occupation powers—the United States, Great Britain, France and Soviet Russia—agreed today to abolish their controls over Austrian communications.

"It is one of the most far-reaching decisions in recent years," an American informant said.

Under the agreement, effective next Tuesday, the Austrian government will be given control of internal and international postal, telegraph, telephone, radio and teletype communication.

# U.S. Firm Interested In Island Steel Plant

## SHAMROCKS MEET PILS TONIGHT MINUS BOOTH

Victoria Shamrocks will be without the services of high-scoring centre Larry Booth tonight when they open a seven-game series with Vancouver Pilseners for the Inter-city Lacrosse League championship.

Forced to miss the last two games of the semifinal series with Nanaimo Native Sons, Booth has been troubled with a severe stiff neck and muscular pains. X-Rays taken today failed to discover the nature of his ailment but it was decided to rest him for this first game at least. His place in the starting line-up will be taken by rookie Al Gill.

## Field Work To Start In 10 Days

By GORDON FORBES

An American company will start investigating the possibility of establishing a steel industry on Vancouver Island in the next 10 days, Trade and Industry Minister Ralph Chetwynd said today.

The minister declined to disclose the name of the firm.

He explained that if the plans materialize the company would likely use the "Madaras" process, an electrolytic method by which ore can be smelted in small quantities.

Mr. Chetwynd has been harboring hopes for an investigation for many months. He first hinted at the possibility in his maiden speech in the Legislature this spring.

But the minister was then referring to a San Francisco group which has since lost interest in the venture because of the passing of two of its leading figures.

## NEW HOPE

The new firm's interest gives new hope to Mr. Chetwynd's spring announcement that iron ore smelting was a distinct possibility for the Island.

The smelter would use power from the John Hart power development.

Government sources are optimistic about the outcome of the investigation and feel this is not just another step in the long series of disappointments to which British Columbians have become accustomed in connection with proposed steel industries.

The island's major ore deposits are at Quinsam Lake, (where ore is being shipped to Japan), Zeballos and Texada Island.

## NOTHING HEARD

Meanwhile, nothing further has been heard about previously announced plans for establishment of an iron ore smelter on the mainland.

Lands and Forests Minister R. E. Sommers said last May Quebec Metallurgical Industries Ltd. of Ottawa, a subsidiary of Frohiser Ltd., had entered into negotiations with Western Canada Steel Company Ltd. of Vancouver for building of a smelter on the coast.

Plans called for initial production of 100 tons a day, with expansion to 200 tons later.

Frohiser interests have at Zeballos what is considered to be the best deposits of high grade iron ore in existence on the coast.

Western Canada Steel already has in operation a rolling mill, fabricating plants and a furnace capable of producing 100 tons of steel per day from scrap.

## Doe, Cherry Lead At Halfway Point In Canadian Golf

MONTREAL (BUP)—Don Doe of Granby, Que., and Don Cherry of Dallas, Tex., were 1

up over their opponents at the halfway mark in 36-hole semifinal matches of the Canadian amateur golf tournament at the Kanawaki Golf Club today.

Doe, the only Canadian to reach the semifinals, was leading Roy Macgregor of Scotland, and Cherry, a recording crooner, was leading J. C. Wilson, also of Scotland. Macgregor and Wilson are members of the British Walker Cup team.

India's defeat had been certain in view of the fact that Thursday's 27-to-21 vote in the political committee was far short of the required two-thirds majority.

## India Pulls Out of Korea Debate

UNITED NATIONS, N.Y. (AP)—India averted a defeat in the UN general assembly today by withdrawing as a possible participant in the Korean peace conference.

The announcement was made by Indian delegate V. K. Krishna Menon as the 60-nation assembly prepared to act on proposals for setting up the peace party.

Menon referred to the strong opposition by the United States and the Latin-American bloc in the political committee and said: "I think the purposes of peace are best reached by not forcing the resolution on India in this assembly."

India's defeat had been certain in view of the fact that Thursday's 27-to-21 vote in the political committee was far short of the required two-thirds majority.

Mr. Duker, with secretary-manager Frank Bird, director Roy Long and legislative committee chairman Booth, discussed the issue this morning with Attorney-General Robert Bonner and Stan Taylor, superintendent of insurance.

The association has been studying the possibility of going into the insurance business for several years.

An official application for permission to sell the insurance will be made soon, Mr. Duker said.

San Francisco (UP)—All five were arraigned before U.S. Commissioner Joseph Karsh here Thursday night less than nine hours after they were caught in the well-laid FBI trap.

Almost simultaneous with the arraignment of the five here, other FBI agents were arresting a sixth person implicated in the huge Communist coverup.

A woman identified as Patricia Blau, 42, alias Janet Conroy, was stopped as she drove her car from Modesto to Stockton, Calif. The FBI said her car "had been used" recently by the two fugitive Red leaders.

The woman, who also uses

six other aliases, was held in San Joaquin county jail at Stockton. She was to be arraigned later today on charges of harboring fugitives. The FBI said Mrs. Blau, who was active in the Communist Party in Bangor, Me., in 1946 and in Colorado from 1948 to 1950, was believed to have been living in San Jose, Calif., recently.

The FBI said she "definitely" was involved with the Reds trapped in the mountains.

Nearly a score of FBI agents, unshaven and dressed as campers, swooped in on the mountain retreat near Sonora in California's Tuolumne County.

express was roaring round the curve scant yards away.

Lovemore leaped on the child and fell between the tracks clutching Adrian tightly. He lay motionless while the express thundered over his head at 45 miles an hour.

"It was too close to be comfortable," Lovemore said. "It was tough and go who would get their first, the train or me." As he carried Adrian back to his signal box, the baby gurgled "choo-choo."

## TOO CLOSE TO BE COMFORTABLE

### Train Roars Over Brave Signalman and Baby Boy

BRISTOL, Eng. (Reuters)—Two-year-old Adrian Grant crawled onto the railroad track near here Thursday two minutes before the Bristol-Car diff express was due.

In his signal-box nearby, Colin Lovemore, 34, frantically flashed a "stop" to the onrushing train.

But the express was already past the red warning light. He dashed out of his tower and sprinted 150 yards to where the youngster lay. By then the

## I LOVE YOU, I LOVE YOU I LOVE YOU, I LOVE . . .

FREEDOM VILLAGE, Korea (UP)—Three little words repeated over and over by a girl from Brooklyn disgusted the Chinese.

That is why prisoner of war Cpl. William C. Rhadigan, 22, of Richmond Hill, N.Y., received all the letters written by his sweetheart, Theresa MacDonald.

"All she ever said was 'I Love You,'" Rhadigan said. "But that was enough for me."

Looks like them California badmen Nevada chance.

M' Uncle Zeke sez whut with less bus routes he's goin' t' have t' run twice as far now.

Gotta feelin' them Pils better have a lot o' iron in them tonight.

## BACK PAY PROMISED TO MINERS

**NORANDA, Que. (BUP)**—Noranda mines promised to give 1,600 striking employees two weeks' overdue pay today after moving its accounting staff into the mine through 100 pickets.

The CIO United Steelworkers Union had threatened to sue the company for delays in handing out the cheques, but later refused to let office workers in to make them out.

The mine said the delay was the union's fault for illegally denying access to the plant, while the steelworkers said the company refused to negotiate on a system of passes for office workers.

Late Thursday, striking miners opened their picket lines to admit 15 office workers led by chief accountant S. D. Cooke. The cheques for the Aug. 1-15 period were due Tuesday.

The men went on strike last Saturday after the company refused to grant a union demand for dues checkoff in a new contract. Another 400 men were idled in shutdowns of two smaller mines which used the Noranda smelters.

The mine warned the union it could hold out for six months if necessary. In 1946 it outlasted the union in an 82-day endurance contest.

The union answered by building shelters in which the pickets could keep warm in winter. It also formed a special committee to campaign across Canada for funds to aid the strikers.

## IRAN TO OPEN TALKS WITH BRITAIN ON OIL

CAIRO (Reuters) — Iran's new prime minister, Gen. Fazlollah Zahedi, announced that he will hold oil talks with Britain in the second half of September, according to the newspaper Al Miar here today.

In an interview given to the paper's correspondent in Tehran, Zahedi said negotiations with Britain would be conducted on the basis of the Iran oil nationalization law.

The law dispossessed the British Anglo-Iranian Oil Company in 1951.

In London, the reported statement surprised official quarters.

The first preparatory step to resumed oil negotiations must be the restoration of diplomatic relations between London and Tehran, it is felt here. After that Britain would gladly take up the oil question again if there were hopes for settlement.

## RENFREW ROAD

(Continued from Page 1)

the beach at the far end of the bay. Two men were drowned.

People in Port Renfrew are touchy about a West Coast Road, we found.

"Do you know," said Jim Anderson, who operates a taxi and owns a hardware store, "there are people still in here who came to homestead more than 62 years ago with a promise from the government that the road would be started immediately. They are still waiting."

The most ardent rooter for the development of a road is Mrs. Mildred Lavender, president of the Chamber of Commerce. She claims there are thousands of acres of river bottom land in the San Juan and Gordon River Valleys going to waste.

"The land will grow the finest vegetables and small fruits in the country," she said.

We did not have to be told that fishing was good at Port Renfrew. There was plenty of evidence. We saw several persons catch salmon between 25 and 30 pounds. The San Juan River appears to be a favorite fishing spot.

After talking to people and visiting the area, we are convinced a road connecting Port Renfrew with the urban parts of the Island would be an asset to Victoria. As things stand now, most of all the commodities purchased by residents of the area come from Vancouver by boat.

From a recreational and tourist point of view, San Juan has good possibilities. The value of these two resources, however, will depend on how Port Renfrew is developed and planned.

## 2 Members of U.S. Mountain Climbing Team Come Back

KARACHI, India (UP)—Two bearded members of the ill-fated American Godwin Austen expedition came back to civilization today, with the icy mountain K2 they had sought to climb still unconquered.

Expedition co-leader Robert Bates of Exeter, N.H., and Peter Schoening, of Seattle, Wash., reached the town of Skardu in the bleak Himalayan foothills two and one-half months after setting out with six companions on a vain assault on the snow-capped peak that cost the life of one man.

Arthur H. Gilkey of New York City, a member of the climbing expedition, was killed during the descent when others, carrying his stretcher, slipped on the brink of a knife-like ridge and he was hurled to the rocks below.

Gilkey was suffering from the effects of frost-bite after the team had abandoned the attempt to scale the 28,250-foot peak, second highest in the world. They were turned back by a blinding snowstorm and a 72-mile-an-hour gale.

## SWIM, FISH, SKI

## Canada Eases Travel Ban On Soviets

OTTAWA (BUP)—Canada today gave Russian diplomats in Ottawa and their families an extra 15,000 square miles of rolling farm land, rivers, lakes, and bush in which to swim, fish, and ski.

Diplomatic sources said that was about the net gain the Russians received in a Canadian move to relax travel restrictions on members of the Russian diplomatic mission here.

For the past 18 months, all persons connected with the rebrick embassy building on Charlotte Street have had to notify the External Affairs department 48 hours in advance if they wanted to travel more than 25 miles from Ottawa. Thursday, the department advised the embassy the restriction would be relaxed sufficiently for Russian personnel to travel up to 75 miles from Ottawa.

But the new 75-mile limit falls short of any vital area in which the Soviet staff might be interested. They will still need to notify the External Affairs Department in advance of their intention to go to Montreal, even on a shopping expedition.

The Canadian restriction on Russian travel was originally imposed when Russia clamped tight controls on the movement of westerners in Moscow.

**Britons To Be Able To Buy White Bread**

LONDON (Reuters)—Britons will be able to buy white bread next week for the first time in 11 years.

Government control of the milling industry ends at midnight Saturday and bakers will then be able to use winter flour in loaves free of price control.

**100 Ontario Fires**

NORTH BAY, Ont. (BUP)—More than 100 fires raged through northern Ontario forests today, the worst single outbreak in years, and the department of lands and forests banned all bush travel in part of the tinder-dry district.

**BUSY MAYOR**

HALIFAX (CP)—Citizens remarked "a mayor's work is never done" after Mayor Richard Donahue in one night addressed a group of touring high school boys from Toronto, tossed out the first ball under lights at a sports field and then presided over a council meeting.

## Germans Fight Red Police to Retain Food

BERLIN (UP)—Hungry East Germans are reported to have battled Communist police in the Red-held suburbs of Berlin today to save their American "Eisenhower" food packages from confiscation.

The anti-Communist "League of Free Jurists," which received the report, said that the hungry Germans rebelled when squads of the Red "People's" police tried to confiscate their parcels in the suburban Babelsberg elevated railroad station.

Hundreds of men joined in the attack, the league said, and beat up policemen until reinforcements were called.

In the end, it was reported, the police cleared the station but abandoned their attempt to confiscate the food packages.

## Hunt Intensifies For Lost Shepherd In Kelowna Region

KELOWNA, B.C. (CP)—Men on horseback are searching in rain-soaked bush country 45 miles east of this Okanagan Valley community for a shepherd missing since Saturday.

The missing man, Gus Busquet, was last seen Saturday night when he left his camp for another sheep camp two miles distant. He was lightly clad but carrying his rifle.

The six-man search was led Thursday by RCMP constable Brian Williams and Game Warden Don Ellis. The party scoured an area known as the Gray-stokes.

### Britain Takes Newest Jet Off Secret List

Just off the secret list and in super-priority production is Britain's new crescent-winged Handley Page "Victor" jet bomber. Large plane is shown at Radlett aerodrome shortly before its test flight before high-ranking officials of the Royal Air Force and government leaders from Britain and the U.S. The giant jet bomber is one of the largest and fastest built for military use.

### CHURCHILL'S INFORMAL ATTIRE SHOCKS EXPERTS

LONDON (Reuters) — Prime Minister Churchill got a lecture today for turning up at a recent cabinet meeting wearing a formally cut black jacket with a pair of baggy grey slacks.

The Tailor and Cutter, trade journal of the British men's wear business, said sartorial pundits were shocked when they saw the pictures in the papers.

It described as "unorthodox" his "marrying of what happened to be a lightweight pair of grey worsted trousers with a single-breasted, link-buttoned jacket of very formal cut."

"Indeed," the journal added scornfully, "the jetted pockets, pointed lapels and link button gave the appearance of being related to the dinner-jacket family."

### 'BUT OH, WHAT SWEET POISON!'

### Girl Free After Shooting Mayor in Lovers' Quarrel

ROCKHAMPTON, Australia (CP) — A pretty ex-secretary of Mayor Reginald Pilbeam walked out of court free today on a suspended sentence, convicted of trying to kill the mayor in a lovers' quarrel.

The girl, Jean Jennings, 26, was released on a suspended sentence of two years' hard labor. She also posted a two-year good behavior bond for \$225.

The jury returned a recommendation for mercy with its verdict.

Pilbeam, 45 and married, admitted in court that he had stayed at a hotel under an assumed name with Miss Jennings, given her a wedding ring and other gifts and promised to marry her.

Miss Jennings told the court: "He was poison for me. But oh, what sweet poison." She said she had been intimate with the mayor since 1949.

They quarreled and she shot him in the side with a pistol while they were driving in a car. He now is recovering.

### Washington Must Approve Milk Strike

TORONTO (BUP) — Greater Toronto housewives looked anxiously to Washington today to learn how much longer they could expect milk deliveries.

The AFL Milk Drivers Union announced it had filed formal application for permission to strike with its parent body, the AFL Teamsters Union.

The centre of the dispute was a company proposal to cut deliveries from six a week to five before awarding wage increases. Both the union and the Toronto Milk Distributors' Association agreed to resume negotiations, but no meeting date was set.

### U.S.-Spain Argue Over Use of Bases

WASHINGTON (AP) — Stubborn bargaining between the United States and Generalissimo Franco's Spain appeared today to be still holding up full agreement after nearly 18 months of talks on obtaining use of Spanish bases in return for U.S. aid.

Among the issues remaining, authoritative sources say, are control of Spanish base facilities and the way in which U.S. aid funds would be used in strengthening them.

Maj. Gen. August Kissner of the U.S. Air Force, head of the negotiation mission to Madrid, is back in Washington this week reporting on progress.

He has not been available to reporters.

Despite the secrecy prevailing since the start of negotiations, it has become known that arrangements tentatively agreed on following these lines: There would be three main pacts — one on economic aid, another on military aid and the third on the use by the United States of Spanish bases.

Sixteen million shares changed hands on Wall Street on October 29, 1929, start of the great depression.

### Violence Marks Phone Strike in Indiana

By UNITED PRESS Labor unrest in the United States grew today as a new telephone strike was called in the Washington, D.C., area, and an angry mob screamed its defiance at night stick-swinging police in a violent communitarian strike in Indiana.

Negotiators tried again to reach a wage agreement between the nation's long-distance telephone operators and the American Telephone and Telegraph Co., after a handful of operators in three midwest cities staged temporary walk-outs Thursday.

Other strikes disrupted work in the rubber industry and an atomic installation, and walk-outs were threatened in the maritime and garment industries.

At St. Louis negotiators were stalled over a "strike protection clause" in attempts to end a week-long strike by 53,000 employees of the Southwestern Bell Telephone Co.

The new phone strike in the east began at 6 a.m. EDT when pickets appeared in Washington. A total of more than 14,000 Communication Workers of America (CWA) members were expected to walk out at Chesapeake and Potomac Telephone Co. exchanges in the capital, suburban Virginia, most of Maryland and parts of West Virginia.

A company spokesman said the federal government's huge and vital telephone network would not be affected.

The strike call was issued after futile all-day bargaining sessions Thursday in which the CWA rejected a company wage offer ranging from \$1.50 to \$2.50 a week for operators and maintenance men in the Washington area.

More than a dozen persons were arrested Thursday night in Indianapolis, Ind., when a shouting, surging mob demonstrated in the CWA strike against Indiana Bell Telephone.

"Bring on your bayonets," the crowd shouted, in an apparent reference to rumors that the Indiana National Guard has received recent riot training with rifles and bayonets.

## Behind the Hydrogen

BY INVOKING THE DARK shadow of the hydrogen bomb Mr. Malenkov, in his first public speech as dictator of Russia, obviously sought to hide some unpleasant facts within his own country. A careful reading of the full text of that speech, with its vast array of statistics and promises, shows that the Russian economic system has not performed of late according to plan.

The people of Russia and its satellites still are not getting anything like the amounts of goods which they have been promised over and over again.

Mr. Malenkov's figures reveal, for example, that Russia produced 3,000,000 metric tons of meat last year as against 3,303,000 tons in 1938, though in this same period the total population has grown from 167,000,000 to 210,000,000.

Milk production last year was 10,000,000 tons as against 10,385,000 tons for a much smaller population before the war.

The second Five Year Plan proposed to produce 5,100,000,000 meters of cotton textiles in 1937 but Mr. Malenkov claims only that the output this year will be 5,300,000,000 meters.

The state's great housing program evidently is in serious confusion. When Mr. Malenkov admits that "house-building plans are not being fulfilled" and when the local plan in Leningrad has been carried through this year only to the extent

of 10.7 per cent, it is clear that housing, under state management, is a serious failure.

The obvious purpose of Mr. Malenkov's speech is not so much to frighten the outside world with the news of the hydrogen bomb as to rebuild the morale of the Russian and satellite peoples. Its deterioration in the satellite countries is proved by their spreading revolts, though in Russia it can be disguised by iron-clad dictatorship and strict secrecy.

Mr. Malenkov is telling the ordinary consumer to be patient for a little while longer. He promises, like Stalin before him, that they will soon have more goods of every sort, especially food.

To this end he has undertaken a partial retreat from state planning in agriculture, where the farmers are to be given higher prices for their foodstuffs, and are to be allowed to own more cattle under private ownership, and are freed from certain regulations. The retreat is minor and doubtless temporary, like the famous retreat of Lenin's New Economic Policy in the first days of the Revolution.

There is to be no deviation from the great central plan and the theory that the state can produce and distribute goods better than the private enterprise. As Mr. Malenkov's figures show, that theory is still a long way from being proved and the people are restive under repeated promises, which somehow are never fulfilled.

## No Easy Cuts

THE FINANCES OF THE United States government are much worse than they look.

The present budget, it is officially estimated, will produce a deficit of something between \$4 and \$5 billions, roughly the total amount spent annually by the Canadian government. But the Republican Congress (elected on a promise to balance the budget) is determined to reduce taxes next spring by an annual amount of \$8 billions.

Unless expenditures are drastically reduced, the nation is heading into higher deficits than the Democratic government ever incurred in peacetime.

Clearly it is impossible to balance the budget by minor economies, by paring a few civilian expenditures here and there. If all the expenses of the government, apart from de-

fence debt charges and veterans' pensions were wiped out still there would be a substantial deficit after the proposed tax reduction.

It is obvious, therefore, that short of a dangerous cut in defense and probably the total elimination of foreign aid (which is actually defense in another guise) the American taxpayer cannot afford any heavy tax cuts at the moment.

There is a lesson here for us in Canada. With our budget edging towards a deficit we cannot hope, without a deep change in the world climate, for any heavy tax cuts either. The wisest and most courageous act of Mr. St. Laurent's career was to refuse, for vote-catching purposes in the recent election, to promise such easy relief from the actual facts of life. In this respect his position is much sounder than that of Mr. Eisenhower.

## Reliable Markets

THE UNITED STATES MARKET, Canadians have been told frequently of late, is an unreliable, dangerous market. The British and Commonwealth markets, on the other hand are said to be reliable and could be abundant if we only would cultivate them. Unfortunately the problem is not nearly as simple as that.

In the first place, the markets of the sterling area cannot pay anything like the price which our exporters are now receiving from other markets. In the second place, the sterling area cannot be more reliable as a market than the United States and might well prove less reliable, even if we accepted its lower prices.

The reason for this is obvious enough when the history of the post-war years is remembered.

In 1949 the United States suffered a minor recession which passed in a few months. It did little harm to the American economy. It was disastrous to Britain and the sterling area. A small reduction in the United States' total volume of business resulted in a drastic reduction of American imports from the sterling area. Earning less dollars, Britain had to restrict imports from the dollar area by the final and desperate

remedy of a devaluation of the pound.

Devaluation restricted the sale of Canadian as well as American goods in Britain and the sterling area, as it was intended to do. The meaning of these events is crystal clear—any shake in the American economy is instantly carried like an electrical shock into the economy of the whole world, simply because the American economy is the dominant factor in the world's business.

It is absurd, therefore, to say that Canada could escape changing conditions in the United States, even if it did no trade in that market. The other markets in which Canada traded would be immediately depressed by an American depression. It may be said, indeed, that the whole world market is only as stable as the economy of the United States. A serious depression there—of which there is no immediate sign—would produce a depression everywhere.

In a study of Canadian conditions not long ago The London Economist reduced the matter to a nutshell: "In contemporary conditions, an export trade with Britain is in no way an insurance policy for Canada." No insurance policy can cover the risk of an American depression for Canada or any other country in the free world.

## Bright Bloom of Late Flowering

THE GARDEN ROSES ARE FADING and frost has yet to lay a paintbrush on the woods. Yet there is a bright splash of color throughout the land.

It is the late August shift of the middle-aged North American male and its hues make the gladiolus languish.

Here is the late-blooming hybrid, a phenomenon more startling than anything botany can boast. It grows vigorously, almost virulently, and appears in what may have seemed the most inhospitable soil.

The middle-aged North American male comes out in this garish foliage usually on vacation but occasionally at work. His explanation of the blossoming is simple, probably correct and often convincing.

"My shirt?" he asks in feigned surprise at the inevitable query over its origin. "Oh, my wife brought it back from her holiday. Bright, isn't it?" he asks a bit sheepishly, "but comfortable," he adds in tones of unmistakable discomfort.

No one knows why a wife imposes this flamboyant coloration on her sober mate. Perhaps in reprisal for the male-inspired shift in the hemline, perhaps in a softening-up process for her own millinery indiscretions to come, or perhaps in preparation for the square dance season in the offing.

Whatever the reason, the landscape is the brighter and milady has proved once again how art in feminine hands can improve on nature when nature is in the doldrums.

## Short Trip, Wasn't It?

## Chips

BY DAVID BROCK

SCIENCE baffles Brock again. Science marches on, and wipes its feet on me. Down with science, I am an anarchist.

The latest thing science did was to sell me an automatic washing machine. (Two sciences, one to make the machine and one to sell it to me.) It is a rattling, screaming, shuddering machine and will shortly drive me mad myself. I had never known before that certain forms of insanity are catching. It has already broken the asphalt tiling on which it stands; I knew steel could get "fatigue" from constant vibration which rearranges its molecules, but it seems that asphalt tiles feel the same way.

Before I go completely off my rocker, I'm going to record one really comical fault among the many I've noticed in the fiendish invention. It has no thermostat to vary the proportion of hot and cold water, so that if my boiler is very hot, the water in the machine is going to be too hot also. Yet two or three parts in the machine are made of a plastic which does not take kindly to much heat. The mechanic tells me the makers are now replacing those parts free, and with a tougher material, but he managed to give me the impression that the whole affair is my own damned fault. Hooray for science! Down with reactionary Dave! You can't put the clock back!

## A FALLACY

EVERY time a progressive tells me I can't put the clock back, I wonder what sort of clock he has. I put clocks back all the time. The metaphor is a silly one. I suppose he thinks clocks are calendars. I'll be putting the clock back a whole hour when daylight saving ends. As for his real meaning, that you can't go back to your first idea when your second one proves worthless or dangerous, this is even sillier. It is true that after you have jumped off the Empire State Building, only a miracle will keep you from getting mixed with the traffic below. But this is an extreme example. Up until the moment you jump, you can put quite a few clocks back.

I knew a man who did some clock-backing under very similar circumstances. He had decided to bump himself off, for various reasons. Two of the reasons were that he had interfered with the chemistry of his brain by means of (a) living on a diet of potato chips three times a day, and (b) trying to restore the consequent lack of pep by means of overdoses of pep-pills.

HE WROTE one farewell letter, which was addressed to me, and

climbed under a blanket which he had thrown over an unlit gas jet. But then a nasty thought struck him. Not only would this involve me in an inquest, but the coroner or police might share the letter with the newspapers.

He turned off the gas, stamped the letter, and went out to post it to me privately. Just as he was about to drop it in the box, the fresh air and the walk began to give him what was either fresh strength or a blunted purpose, and he wondered how I would feel if I read the letter and then discovered later he had decided not to bump himself off after all. This dilemma got him so mixed up, he walked home with it unposted, and put off suicide indefinitely. Back went the clock. Incidentally, on three occasions I talked him out of a divorce, for which both he and his missus were thankful later. More clocks, if only cuckoo clocks.

## PRETTY, ISN'T IT?

EVERY day a few more stenographers fall into the habit of spacing the figures 1953 very far apart, to make them equal the length needed for the day of the month, thus:

August 28th  
1 9 5 3

For some absurd reason this manages to irritate me. Many affected but innocent little prettinesses do that. Obviously, I lack tolerance as well as a good digestion and an eye for beauty. When they write out the day of the month in letters instead of figures, it charms me even less. Thus:

August twenty-eighth  
1 9 5 3

I wonder when they are going to get round to doing that equal-spacing stuff with signatures? Thus:

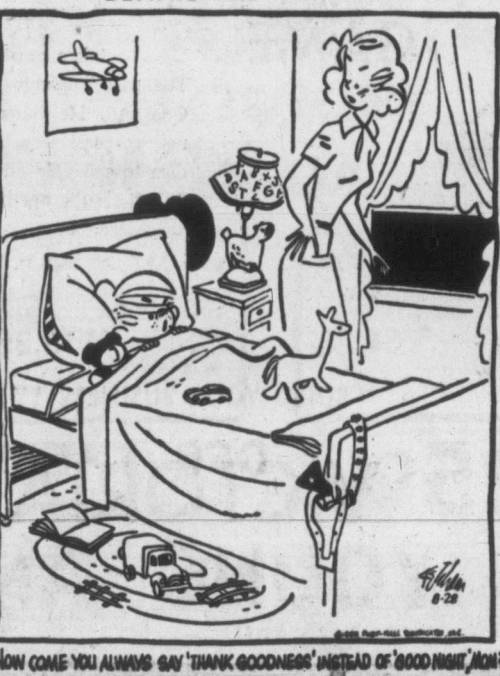

Hannington P. Beddingfield  
(M a n a g e r)

## THANKS FOR THE MEMORY

A FRIEND gave one of my children the skin of a seven-foot wolf he'd shot in the Selkirk. . . minus the paws, which the police kept after paying the bounty. The wolf was shot while moulting, so that much of his hair is really more like wool, and can be plucked away in handfuls before it falls out by itself. Still, it was useful to hang in the cellar to frighten rats away, which it did to perfection. However, it failed to alarm the moths, and finally I chucked it into the garden, where it now hangs round in a bored and sickly way. A little boy from next door came in and stared at it, and said "That isn't a very well-kept wolf. But it's nice to have as a memory." A memory of what? He forgot to tell me. Of the days when it scared the daylight out of the rats, I suppose.

## DENNIS THE MENACE

## From Our Files

August 28, 1893—A party of excursionists from Port Townsend numbering 200 visited the city yesterday afternoon and spent several pleasant hours seeing the various sights.

August 28, 1913 —Delegates to the International Geological Congress left today for Prince Rupert and Alaska. Many of them visited Mount Tolmie and Albert Head yesterday.

August 28, 1933 —Unemployment in B.C. reached its peak last March with a total of 139,000 persons receiving relief directly or indirectly, it was officially reported today.

## As Our Readers See It

### TIME FOR LUNCH

"Hamburger" regrets the newly devised hours of work for provincial civil servants working a five-day week—now 8.30 a.m. to 5 p.m.—and suggests a return to former hours of duty with a shortened lunch hour in order to avoid the increased traffic and domestic inconveniences which have resulted from the change.

The regret appears well sustained and little consideration seems to have been given to the additional and always increasing traffic jam during morning and evening journeys to and from the city.

Other riders, drivers and the transportation companies will undoubtedly appreciate your correspondent's appeal and confirm the nature of his complaint. So, indeed, will the school kiddies who formerly secured the morning lift to school in the family car now leaving home before the children are fully awake.

Civil servants are not happy with the new arrangement which may be changed with desirable results to all by merely adjusting the time allowed for lunch.

"SENIOR CLERK."

### AWAITING ACTION

In Mr. Bennett's post-election statement he says the federal Socred candidates were defeated by a "last-minute smear campaign." He has also hinted that action will be taken against Leslie Roberts for his New Liberty article regarding the Socreds.

The now notorious Rev. Ruthven pamphlet (which has not as yet been republished by Socred leaders) also the Roberts article undoubtedly did a lot to convince voters of the religious intolerance, opposition to UN and many other things advocated and practiced by Socred leaders and followers.

The people now await the legal action against Leslie Roberts when (if the Socreds follow through) all the ugly facts will be thoroughly aired. Frankly I do not think the Socreds will challenge the Roberts article.

FRANK H. PARTRIDGE,  
151 Beach Drive.

### SOCIALISM AND COMMUNISM

Socialism is Communism.

Mr. E. J. Wicken in his August 24 letter tells me not to confuse the two (apparently he thinks they are quite similar or he would not fear my confusing them) and tells me not to place the principles of Communism under the heading of Socialism.

Why? On August 10th 90 per cent of the voters showed they thought there was no difference between the two as they voted for capitalism. Isn't that enough of a majority?

In Russia and her satellites the state controls everything, state ownership to freedom of speech.

Mr. Wickens says my "nasty slur" was meant for the CCF. The CCF believes in state ownership and would enlarge upon this until they owned our freedom.

I know the difference between Socialism and Communism. Communism is Socialism in a hurry.

And now for Mr. T. C. Matheson, apparently a Socialist by his August 24 letter. He has faith in Lincoln and thinks Socialism is all right. He quotes Lincoln's "support" of Socialism. "The legitimate object of government is to do for a community of people whatever they need done, but cannot do at all, or cannot do so well for themselves in their separate and individual capacities."

But Abe also said, "That this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth." In other words Socialism or Communism or whatever you want to call a dictatorship have no place here.

Democracy—the unlimited abundance of freedom and liberty—shall live on.

"ABE LINCOLN."

### THE CONSERVATIVE PARTY

Really Mr. Editor, your two recent editorials stressing the desirability of a stronger Conservative opposition in the House at Ottawa, and a reform of the Senate, just did not ring true. You must have had your tongue in your cheek.

Surely you want the Liberal government to control the country for another century, else what would happen to all your party heeled, and for Liberals to wish for an opposition capable of taking over the government, that would be just unthinkable, for all the Grits I have spotted to.

With regard to the Senate, your leader, Mr. St. Laurent, has had many opportunities to build up an opposition there, but oh, no, in spite of the fact that he did not get 50 per cent of the vote, every new appointee has to be a good little Liberal. As he looks over the vast

area of Canada he just cannot see one individual, other than a Liberal, fit to get a cushioned seat, plus \$6,000 per annum, in the Senate. To him, as the good book tells us, outside his own party: "There is none good, nor, not one."

If this is not political nepotism, I do not know what is.

As a man, I respect Mr. St. Laurent, as the PM with power to allot Senate seats—which will soon consist entirely of Liberals, I consider his action dishonest.

As you will know, in the British government, when honors, such as seats in the House of Lords, are handed out, the PM, whether he be Conservative or Labor, ALWAYS includes one or two members of the opposition. This should be the practice in Canada.

Surely one day, Canadians will wake up and elect a Socialist or Socred government, who will never tolerate a Senate composed of 100 per cent Liberals.

WALTER HILEY.

Queenswood.

### "SERVICE TO COUNTRY"

What an incredible fuss about Percy Wright, MLA!

The mayor has stated: "The city should be given statutory power to grant leave of absence for service to the country whether for provincial or Dominion purposes."

"Service to one's country" invariably implies army, air or naval service in which one's life may be sacrificed. Neither Percy Wright nor any other Greater Victoria Social Credit MLA militarily served his country in time of war. The opportunity sought by Mr. Wright to serve as an MLA for a short term, \$3,000 sessional allowance, without militarily risking his life, hardly requires the mayor's sympathetic consideration.

H. M. ROGERS.

902 Government Street.

### WRONG PLACE FOR POLITICS

It is unfortunate that citizens elected and employed to administer our local municipal affairs should allow the precincts of the City Hall to become the centre of political controversy, more particularly when a copy of our Municipal Act has been at their disposal for their guidance in such matters ever since its inception.

The articles we read in our local daily press concerning the election of Percy Wright to the legislature and his status on the staff of the City Hall makes poor reading for the electorate of the community and it is hoped that at the next annual convention of the B.C. municipalities the rules governing such matters will be clarified if there is any doubt as to the meaning of any clauses, so that in future this unpleasant kind of publicity will not recur.

THOMAS TREDWAY.

1952 Brighton Avenue.

### TOLERANCE!

Your correspondent, Mrs. K. M. Worthington-Lake, does not seem to be very well posted on world history nor on present-day facts, nor even on the Scriptures' teachings. She should be reminded, among many similar historical events, of the St. Bartholomew-day, which on 24th of August, 1573, had its 381st commemoration anniversary!

Then there are today's numerous facts such as those which caused Stephen's imprisonment in Tito's Yugoslavia! Then there is the intolerance, with all who differ with them in their religion, shown by Quebec, Eire, Italy, Portugal, Spain, Bolivia, Argentina, Columbia, etc., which could all be summed up in "subscriber's" reason given in last Friday's Times (21-8-53) for objecting to Canada sending a representative to the Vatican: "It is because we object to a totalitarian government in any form!"

Since the dark ages to the present day the Vatican has been faithful to its motto "Semper idem" (always the same), if not Scripturally yet most certainly administratively.

The Lord Jesus Christ's own words: "I am the Way (the Road), the Truth and the Life, no man cometh unto the Father, but by Me," prove definitely that He, Christ, alone is the only and sole Mediator and Saviour (at the exclusion of any and all human would-be intercessors and saviours) Who leads the repentant sinner to the footstool of God's throne!

The "golden rule" can be applied adequately only after one has satisfied the heavenly injunction: "Believe on the Lord Jesus Christ and thou shalt be saved" and "Seek ye first the kingdom of God and His righteousness and all these things shall be added unto you." (See Matthew, Chapters 5, 6, 7; the Sermon on the Mount).

L. J. ECKMAN.

40 Wellington Avenue.

## 'Though Dynasties Pass'

The Times (London) Weekly Review

THE company who are devoting an August week at Warwick to the study of rural social history are entitled to claim that they are maintaining touch with older, more stable, indeed more real things than the wars and rumors of wars, the estimates and statistics, the markets and exchanges, the fashions and the sports that crowd the description of their proceedings into the corners of the newspapers.

Three institutions connected with agriculture have invited them for these few days to devote their attention to the story of farmers' implements, to folklore, to rural housing, and in general to the historical development of the one indispensable industry; and a learned lady from Oxford will discourse on country housekeeping under three queens. These are things that matter. Some of them are among the few possessions of mankind that even the hydrogen bomb cannot destroy. The nucleated village and the champion husbandry, the medieval shepherds and the great English wool trade, the enclosure movements, the agricultural revolution—these things have done more to dictate our native instincts and thoughts than the trampling of armies or the disputations of statesmen. The vivid exhibition of Heraldry now open at Chelmsford helps to show how worthwhile is the gathering at Warwick, for the rich panoply of azure and gules demonstrates at every turn how the mighty

families of feudal England, who decked themselves thus gorgeously, and lie so grandly on their sculptured tombs, owed their greatness and their splendor to the roots they struck into the soil of their country, with its eternal routine of seed-time and harvest.

"Where is Mowbray, where is Bohun, where is Mortimer?" While they are entombed in the urns and sepulchres of mortality, the country life over which they once presided goes on—not unchanging, that is a fiction of false romanticism—but with a rhythm of forward movement too leisurely, a pulse too massively beating, ever to lose its continuity.

### DREAM STUFF

What humbugs we are, who pretend to love nature and live for beauty; but never get up to see the dawn!

—R. W. Emerson.

### DIZZY

Even though you never take a dip in the surf, there are bathing suits at the seashore that will make your head swim.

—G. C. Mullin.

## Gimme a Cup of Java

I GUESS one man's coffee is another man's poison and always will be. There's no accounting for tastes, if I may coin a phrase.

Most certainly I don't subscribe to the alleged Mohammedan definition of the best in coffee: "Black as night, hot as Hell (that's not swearing) and sweet as love."

I like my coffee with cream and sugar, though not enough sugar to make it sickly, and not so hot that it scorches my mouth.

But I do like to taste the coffee in it. Probably the patron that sits at home or where I go visiting friends, and we have coffee-made in the home, that is—notice the flavor and it's the one I've always associated with coffee.

When I have a restaurant meal and I buy a beverage under that name, it's definitely not tea. On the other hand, my possibly limited experience suggests it isn't quite what the menu calls it.

IT'S UP TO YOU  
No diner is obliged to have coffee with his meal in a restaurant. The restaurateur makes that concession. They emphasize it, in almost every case, by segregating the beverage from the meal itself and charging an extra 10 cents for the drink.

In other words, with a certain diplomatic touch, they're warning the patron that coffee is a thing apart. If the diner would care to buy a dime chance on a cup of fluid, why, who knows, perhaps it will be coffee or a reasonable facsimile thereof.

Constitutionally I'm not a gambler. My hope chest is lined with unredeemed sweepstake tickets, it's true. But I buy them usually to help out some charity or because I can't withstand the blandishments of the attractive girls who sell them. Automatically, I'm not suited to the practice of putting out 10 cents on a cup of something that may be what I want, but, from experience, usually turns out to be something less.

I have suggested to the worldly men of our newsroom that it might pay to wage

a campaign for coffee in restaurants. My program called for each diner to take a thermos bottle into a commercial eating house with him. Near the close of his meal, he would ask for a cup and saucer and pour out from his thermos the coffee he had made at home.

By such gentle insinuation, I believed, restaurateurs would tumble to the fact that what they sold as coffee was under mild criticism. My worldly friends in the newsroom say my campaign wouldn't work.

"What makes you think," they ask, "that such a demonstration would be effective? Why should the restaurateur worry about your likes or dislikes? Haven't you noticed that the beverage is separately priced from the meal? That's just a way of saying 'Caveat emptor.' That means it's your dime, bub; want a chance it?"

CREATING A GUILT COMPLEX  
"But," say my worldly friends, "if you were to take into the restaurant a small bottle of coffee extracts and, come coffee time, ask the waitress to bring you a cup and saucer and a pot full of boiling water, and if you were to mix up your own concoction at the table, maybe somebody'd get the idea then. Or don't you like coffee extracts?"

Personally, I don't think the scheme would be any more effective than my thermos bottle proposal, though it's a bit more dramatic. Frankly, I'm pessimistic about the whole thing. And I'll keep on going out at mid-morning for a cup of what they call coffee, though I'm not convinced I'm getting one by my definition of the drink.

Of course somebody will ask me why I go out and spend my dime that way. I'll be honest. It's a form of escape. It gets me out of the office. I'm running away for a few minutes.

What I'm running away from, I don't know. But most definitely it isn't from caffeine nerves—not on the intake I receive over the counter. It may not be what I'd like to buy, but at least it's warm, wet and as sweet as I like to make it.

By WALTER LIPPMAN

## The Invitation to India

IT WAS a costly mistake to let the question of an invitation to India go to a vote in the General Assembly. The business of a diplomat, who has to take a difficult and unpopular position, is to avoid the kind of showdown by voting which Mr. Lodge has accepted so readily. If in the end he could not avoid the vote, he should have come to it reluctantly, only after the fullest explanation and negotiation with our allies, with the Indians, and with the Arab-Asian bloc.

He had a perfectly good negotiable case. He should have told the members of the UN who voted to repel the aggression of 1950 what had happened: that part of the price of President Rhee's assent to the truce was that the conference should be limited to the belligerents. He could fairly have asked them, did they think we should have refused to appease President Rhee and have risked the failure of the truce? If they think the truce was more important than the membership of the first political conference, then our problem is also their problem. They, as well as we, would then have to develop by negotiation arrangements which honor the commitment to President Rhee and yet do not foreclose, indeed open up the way to, a constructive pacification of Korea.

There are, I realize, many people who do not care whether or not we have the support of public opinion abroad. They appear to think that it will be best if we are left alone with President Rhee to deal with the Red Chinese and the North Koreans. It is easy to understand why President Rhee

wishes to end the truce, to resume the war, and to make sure that the United States is entangled with him and isolated from everybody else. But why should Mr. Lodge be telling the press that in fighting for an exclusive two-sided conference, he is doing everything in his power to make the conference a success so that the 500,000 American young men in Korea can come home?

What makes him think so highly of the prospect that he dares, long before the conference begins, to encourage the dangerous hope that the American army can be withdrawn from Korea? Surely he knows that the Red Chinese are not going to agree to the unification of Korea under President Rhee. He knows, no less certainly, that President Rhee has no present intention of agreeing to the unification of Korea under anyone but Rhee.

And if Korea is not unified under some arrangement which the Red Chinese accept, then there is no reasonable prospect that they will agree to withdraw their troops. It is not reasonable to expect them to agree to withdraw in the face of President Rhee's repeated declarations that he wishes to conquer North Korea, and in the face of the fact that as against the North Koreans alone—with the Chinese withdrawn and neutral—he could probably conquer North Korea.

If the Chinese armies are not withdrawn how can American armies be? We are faced with a well nigh certain deadlock—no unification, no withdrawal of the troops, with Rhee clamoring for a military adventure and with the American people beginning to ask why the boys are not being brought home. With this will go an excellent prospect that having assumed the exclusive responsibility for the conference, we shall get most of the blame if it fails.

and changing them to live in Italy. Then came the war and it all disappeared. "During the war I had to dig with a pick and shovel for the Germans. I worked on the farms and did underground work with the Americans. When the war was over, I had about 35 offers for appearances all over the world. I chose to come to America and be a wrestler. I always wanted to come back here."

Primo found the wrestling game pleasant and profitable. "The gross isn't as big as in boxing," he remarked. "When I fought Max Baer for the title, I, as champion, received 42½ per cent of the gate, which was a million dollars. "But a boxing champ fights only once a year. When I go out on a wrestling tour, I work four or five nights a week in all parts of the country. Sometimes the gate is big, sometimes not. But it's steady pay."

I asked Primo who was the best fighter he faced in the boxing ring. "Jack Sharkey," he replied without hesitation. "He was the complete boxer, a well-rounded fighting man. He could do everything. He was the best fighter after Jack Dempsey."

Primo had little but scorn for today's boxers. "Where are they?" he inquired. "I don't want to take anything away from Rocky Marciano, who is a good fighter and an Italian boy, too. But he's a light-heavyweight. I went to a party after he won the championship. When I met him, he came up to here, indicating his chest. I said 'Is this the champ?'"

Primo's life would make quite a picture. The native Italian boy came to the U.S. and was ballyhooed into a top ring attraction. He made fabulous money but ended up with little to show for it.

"I wasn't as broke as some people have said," he explained. "My money was cut up into a lot of pieces, but I managed to keep some. My mistake was taking the dollars

and changing them to live in Italy. Then came the war and it all disappeared. "During the war I had to dig with a pick and shovel for the Germans. ## Saskatchewan Faces Major Problem in Grain Storage

REGINA (CP) — Even with an increase of 9,200,000 bushels in the total capacity of country elevators, since last year, Saskatchewan faces a major grain-storage problem as harvesting of the new crop—expected to be the second largest in history—gets under way.

Elevator companies in the province say this year's storage space may be as little as half of what was available last year. With terminals at the major grain-shipping ports plugged and exports at a low level, there appears little hope of clearing sufficient space to handle the new crop.

The Board of Grain Commissioners says capacity of Saskatchewan licensed country elevators was 163,700,000 bushels at the end of the crop year, Aug. 1. This presents an increase of 9,200,000 bushels since July 1, 1952.

Country elevators now are storing 115,500,000 bushels of grain, compared to about 80,000,000 a year ago. This year's wheat crop has

been forecast at as much as 365,000,000 bushels, which would be second only to last year's record 435,000,000 bushels.

CAR PLUNGES 300 FEET  
EDMONTON (CP)—B. Goddard of Edmonton suffered undetermined injuries Thursday when his car plunged 300 feet down an embankment and buried its nose three feet into the ground.

Goddard, a security salesman, was taken to hospital for X-rays and examination.

The accident occurred at the top of McDougall hill near the MacDonald Hotel in downtown Edmonton.

DELAY SCHOOL OPENING  
REGINA (CP) — Public schools in Regina will remain closed until Sept. 8, a week later than their scheduled re-opening date, but polo is not the main reason for the postponement, the public school board said Thursday.

Board chairman J. W. Peart said about 50 of the 150 public school teachers are new to city schools and the delay in opening classes will give them time to attend teachers' institutes for orientation and organization.

Another reason is that the board expects many families on vacation next week for the three or four days of school preceding the long Labor Day week-end, said Mr. Peart.

KILLED BY TRAIN  
WADENA, Sask. (CP) — David Pelletier, 65-year-old Wadena district farmer, was struck and killed by a CPR freight train Thursday on a crossing at nearby Tornea.

MANITOBA FISH PROBE  
WINNIPEG (CP) — A commission of members of the Manitoba legislature and representatives of the fishing industry in the province will take a close look at the Manitoba fish business.

The newly-created commission met Thursday and decided to hold public meetings at Gimli and Riverton.

The commission is to investigate charges that commercial fishermen are at the mercy of fish companies.

REMANDED A WEEK  
THE PAS, Man. (CP) — A further remand of one week was given Arthur Joseph Dorion in police court Thursday.

Dorion is being held without plea in connection with the fatal shooting Aug. 16 of Jane Ross at her home on The Pas Indian reservation.

COURTENAY — Lynn Hilton, Vancouver, manager of a prescription pharmacy, is the first woman to be named to the council of the Canadian Pharmaceutical Association.

A native of Courtenay, she was top chemistry student in her senior year at high school, and entered a drug store here as an apprentice immediately following her graduation.

CAMPBELL RIVER — Canada's first Ground Observer Corps observation post, a glass-enclosed structure atop Campbell River High School, is now in operation.

The entire project was carried through with private donations and volunteer help.

Mrs. Lloyd Leishman, chief observer, commands a district that extends from Alert Bay to the Forbidden Plateau.

Clearing Weather Aids Manitoba Air Search for Bomber

CHURCHILL, Man. (CP)—The search for a missing RCAF Lancaster with eight men aboard was intensified today as clearing weather was reported over the rugged Northern Manitoba bushland.

Search master Sqdn. Ldr. Jack Hudson of Winnipeg swung the hunt north of the search base at Churchill. An Otter seaplane will continue scanning the coastal area, where a Lancaster will be kept on patrol day and night over Hudson Bay.

The break in the weather came Thursday noon when fog and rain eased after keeping search planes grounded most of the time since the Lancaster disappeared Saturday night.

The missing plane was on a routine navigation training flight from Rockcliffe, Ont., to Churchill.

Elderly Vancouver Couple Gas Victims

VANCOUVER (CP)—A retired Vancouver couple died of asphyxiation in their gas-filled home Thursday. Police termed the death accidental and said a jet on the gas stove had been left on.

The body of Robert B. Milne, 86, was found in the kitchen and the body of his 78-year-old wife, Elsie, was found in the hallway.

## Island Digest

LADYSMITH — A Red Cross blood donor clinic will be held here Sept. 2 at Native Sons' Hall, with an objective of 200 pints. Dr. J. W. Neville is chairman and assistance will be given by the Canadian Legion, Branch 171.

GANGES — Salt Spring Island will serve as a transit point for evacuees in the event of an aircraft attack on Victoria. Brigadier G. A. McCarter, deputy provincial civil defense coordinator, told island residents at an address here.

COBBLE HILL — Shawnigan-Cobble Hill Farmers' Institute is advocating establishment of scholarships to Guelph Agricultural College to help fill the need for more veterinarians in rural areas of British Columbia.

The suggestion will be introduced as a resolution at the annual District "A" Farmers' Institute conference in Nanaimo Sept. 26.

COURTENAY — Local BPOE has decided to proceed with construction of a new Elks' Home on Sixth Street, beside the present building.

It will be a one-story structure of concrete and cement blocks, measuring 40x70 feet. Cost will be approximately \$45,000.

Tenders ranging from \$78,474 to \$84,093 for construction of a three-room elementary school at Ucluelet were considered by the school board as too high, according to Whittaker and Wagg, Victoria architects.

The board has decided not to award contracts, but will call for tenders at a later date, when land at the school site has been cleared.

**MEMO**  
to  
**MONTE**  
and  
**J. F. K.**

Dear Monte:  
Did you see the ad for Eddy's in last night's paper? The headline read "A Whole Floor to Prove Eddy Is Ready for School."  
Don't you think Eddy Mallek, who is old enough to be a past president of the Kiwanis Club, should have had enough schooling by now?  
J. F. K.  
Our friend Eddy undoubtedly believes you're never too old to learn.

**Eddy Is "Eddicated"**

At any rate he's well versed in just what Victoria women want . . . For instance, the facilities for "one-stop" shopping service, enabling you to outfit yourself and the youngsters . . . (a whole floor of back-to-school values) . . . he knows too how you appreciate the low prices consistent with quality . . . Yes . . . Eddy's taken a degree in what women want in Victoria . . . and passed with honors too.

He's learned too . . . how a simple and easy PLAN-A-COUNT is appreciated. The modern way to pay . . . with no extra . . . no interest and SIX MONTHS TO PAY.

## WEATHER SYNOPSIS

VICTORIA'S SUNSHINE RECORD TO DATE, 1953—1453.7 HOURS

SYNOPSIS—Cloudy skies prevailed in almost all regions of British Columbia this morning but most of the rain had fallen along the coast. More than one-half inch occurred on the northern mainland and the west coast of Vancouver Island, while scattered showers produced one-tenth to one-quarter of an inch at widely separated points over the interior. Rather unsettled conditions are expected to continue through Saturday.

DOMINION PUBLIC WEATHER OFFICE 9 A.M. FORECASTS

VICTORIA—Cloudy with sunny periods Saturday. Occasional light showers in the vicinity. Little change in temperature. Winds light. Low-high, 53 and 68.

WEST COAST—Cloudy with occasional sunny periods Saturday. Little change in temperature. Winds light. Low-high at Estevan Point, 53 and 62.

VANCOUVER, GEORGIA STRAIT—Cloudy Saturday. Sunny periods during the afternoon. Widely scattered showers. Little change in temperature. Winds light. Low-high at Vancouver airport and Nanaimo, 53 and 64.

## 2 Killed, 1,000 Homeless As Cloudburst Floods Rome

ROME (Reuters)—Blinding rain pounded Rome Thursday, flooding low-lying sections, breaching the ancient wall of Vatican City and killing two persons.

The violent cloudburst lasted two hours. When the sun came out, 1,000 families were homeless and 50 persons were injured. The two dead were killed by falling masonry.

A 100-foot section of the towering Leonine wall crashed, taking with it part of the gardens where the Pope takes his daily constitutional.

Rome's 2,000-year-old drains could not cope with the water gurgling down from the seven hills on which the city stands. Mud was plastered everywhere. Thousands of ancient paving stones were torn up.

The Pope watched the freak storm from his mountain summer home at Castel Gandolfo, 12 miles south of the city.

In underground garages, rushing water crashed parked cars

one into the other. Above, the muddy swirl eddied through the glass fronts of cafes, bars, barber shops and floated out the furniture.

Big forces of firemen saved the Vatican art museums from damage, but the famous piazzas became like lakes, with water dribbling into historic churches and palaces.

## One of Top 10 Criminals Taken By FBI in Seattle

SEATTLE (AP)—Jack Gordon White, 34, one of the FBI's 10 "most wanted" men, was captured by FBI agents and Seattle police on the waterfront Thursday afternoon.

White, who has been sought on armed robbery charges brought at Ashville, N.C., last November, offered no resistance. He carried a loaded .38-calibre revolver under the driver's seat of his car.

White, who also used the alias "Zach Ralph Taylor," is wanted at Ashville on armed robbery and numerous breaking and entering charges and at Boise, Idaho, on holdup charges.

## Panamanians Press U.S. for More Money

PANAMA (AP)—A delegation prepared to sail today for the United States to press Panama's demand for more U.S. rent for the canal zone. Backing them, thousands rallied in downtown Panama City Thursday night.

Negotiations between Panama and the United States on revision of the 1904 Panama Canal Zone Treaty will begin in Washington Sept. 10.

Under the 1904 pact, the United States paid \$250,000 in gold annually for the 10-mile-wide strip of land bordering the canal. A later treaty made the annual payment \$430,000.

## Socred Wins Royal City On Re-count

NEW WESTMINSTER (CP)—George Hahn Thursday retained the New Westminster seat he captured for Social Credit in the August 10 federal election with final figures in a judicial recount putting him 35 votes ahead of Liberal candidate William Mott.

Mr. Hahn gained two votes in the recount before County Court Judge Harry Sullivan, returning officer Albert Beatty announced. The recount, which took four days, was requested by the Liberal candidate. Mr. Hahn's election was the only one contested in the province.

Mr. Mott represented New Westminster in the last Parliament.

The recount figures, including the armed services vote, showed Mr. Hahn with 10,770 votes and Mr. Mott with 10,735.

Other figures were Adrian (PC) 3,083, Brady (Lab-Prog.) 896, and Irvine (CCF) 9,258. Ballots rejected totaled 243.

## Burglary Charges Further Remanded

Stephen H. Michaud, facing two charges of breaking and entering, was given a further remand to Sept. 3, when he appeared Thursday afternoon in Saanich police court.

Michaud, 1621 Quadra, is charged with breaking and entering and with breaking and entering and with attempting theft at Safeway Cleaners.

Carl Kisgaard, also of 1621 Quadra, is charged with breaking and entering the steak house. He is scheduled to appear in court Monday but will likely be remanded to Thursday so both men will be dealt with together.

**NEW LOOK?** Sporting a grey flannel suit with a blue and white polka-dot tie instead of the customary khaki, Field Marshal Viscount Montgomery arrived in Ottawa for an action-packed one-week visit.

Robert H. McPherson, 316 Skinner Street, was fined \$15 in Saanich court Thursday when he pleaded guilty to exceeding a 40-mile speed limit on Douglas Street. Police clocked McPherson driving at 60.

## Radar-Guided Missile Fired by Canadian Jet

OTTAWA (CP)—Scientists fired a working model of Canada's air-to-air guided missile and later announced Thursday that the radar-guided weapon has been tested previously in Canada.

The secrecy which cloaked this and previous tests was lifted only enough to disclose a few bare facts.

The experimental missile was designed and built in Canada. It is being developed for the RCAF by the defense research board and the national research council.

Dr. O. M. Solandt, chairman of the defense research board, said in an interview that the missile was fired from a Sabre jet fighter.

"The missile is still in the development stage," Dr. Solandt said. "Today's firing was one of a series of tests which have taken place during the last few months."

The ancient grand mosque in Mecca was floodlit and supplied with fluorescent lighting for the 1953 pilgrimage.

## Doe in Golf Semis

MONTREAL (CP)—Don Doe, tobacco company employee from Granby, Que., carried Canada's final hope today into the semifinals of the Canadian Amateur golf championship.

The red-haired, happy-go-lucky fellow who has never looked up the meaning of jitters, found himself in the select company of three Walker Cup team members—two from Britain and one from the United States.

In the 36-hole semifinal, Don faced Jimmy Wilson of Scotland. In the other semifinal, Don Cherry of Wichita Falls, Texas, met another Scot, Roy MacGregor.

In his two rounds Thursday, Doe defeated his fellow Quebecer, Bob Hall of Montreal, 3 and 2, and then plastered a solid 6 and 5 defeat on 17-year-old Scotty Fraser of Panama City, Fla.

Wilson eliminated Dr. T. Lenzyk of Newington, Conn., 3 and 2 in the morning, and was carried to the 22nd hole in the afternoon before shaking off a fellow Walker Cup member, Lt. Col. A. A. Duncan of Wales.

MacGregor, a relentless 37-year-old golfer who bounces out of tough situations by sheer golfing ability, dashed a popular gallery favorite in Thursday's afternoon round over the Kaniwaki Golf Club course.

### FIVE EXTRA HOLES

Doug Silverberg of Red Deer, Alta., was all set to step into a semi-final hole until the stolid Scot calmly mowed him down on the fifth extra hole. The 21-year-old former Canadian junior champion got rid of one British copper in the morning round with a 3 and 1 decision over J. L. Morgan of England.

The upset of the morning round was the elimination of Joe Carr of Dublin, British amateur champion. Lanky Joe fell before MacGregor in a disappointing exhibition. The Irishman's game was never right and his elimination was no surprise.

### Tennis Draw

Draw for the Victoria Lawn Tennis and Badminton Club handicap tournament tonight follows:

8.00—A. Ellis vs. B. Wollison.  
8.30—T. Smythe vs. J. Dunbar; B. Bess and Louis vs. Parker and Burton (from one set all); Hicks and Wilson vs. V.R. and Elliott (from one set all); and Wilson and Price vs. Parrish and Chalmers.  
9.00—Davies and Ferguson vs. Burton and Davis; Chalmers and Wilson vs. Price and Conway.

### Bowling Meetings

Gibson's Mixed Tenpin League will hold a meeting in the board room of the Dominion Hotel Thursday night, Sept. 3, at 8. Last year's bowlers and others interested are invited to attend.

Gibson's Women's Commercial Fivepin League meeting will be held in the board room of the Douglas Hotel Tuesday night at 8. The Men's Commercial Fivepin League meeting will be held in the Douglas Hotel, Sept. 9, at 8.

## Lewis Again Elected City Football Prexy

Charlie Lewis, veteran booster of soccer and basketball in the city, was re-elected president of the Victoria and District Football Association by acclamation at the league's annual meeting Wednesday night.

Don Gray was returned to the secretary post while Dave Shaw was named to his first term as vice-president. A treasurer will be elected at the next meeting.

It was decided that the closing date for senior entries would be set at Sept. 3.

Representatives present at the meeting were Ron Bland, Victoria West; Joe Watt, Esquimalt; Alan Blair, Civil Service; Carl Pederson, Heanys; Bob Davidson, Adanacs; Ralph Cosier, Canadian Scottish.

### High School Stars Fit in Rebuilding Program

## New Hoop Era at Alberni

Basketball season is still a thing of the future, but the Alberni Athletics are taking steps to see that the future is a bright one.

When Victoria Kins upset the Alberni club last year in the Vancouver Island Senior A League finals, it marked the end of an era as far as the Alberni hoop circles were concerned. It was decided to rebuild the team from the ground up.

The Beginning of Their Silver Collection?

Already burdened down with silverware, Al Gill (left), and Whitey Severson will have their minds on the biggest hunk of pewter of them all tonight, the Mann Cup. While the Mann Cup finals are still far off, Gill and Severson and the rest of the Victoria Shamrocks will be taking a large step towards the Canadian championship when they meet Vancouver Pilseners.

In the first game of the western Canada finals. Winner of the seven-game series meets an eastern team for the Dominion crown. Gill is shown with the Cruikshank Memorial Trophy, while Severson holds the set of silver he won as the most popular Rock and the George Blackstock Trophy as the most valuable. (Halkett Photo.)

## Dodgers Set New Marks In March to NL Pennant

### Eade, Milligan Return to United Soccer Team

Victoria United have patched up their marital troubles and the separation of George Eade and Wally Milligan from the club is at an end.

Eade, who resigned his post as club manager in the middle of last season, has again agreed to resume that position, while Milligan has come out of temporary retirement to accept the coaching berth he gave up last year.

United will hold their first practise some time next week in preparation for the forthcoming Coast League season. Equipment will be issued at 919 Richmond Road Monday night at 7.30.

Last year's players and others interested in gaining a berth on the Coast League team are asked to attend this meeting.

Stubby's are scheduled to meet Cougars in a Diaper Lacrosse League exhibition contest played as a preliminary to the Victoria Shamrocks-Vancouver Pilseners-Inter-city League playoff clash at Memorial Arena tonight. Starting time is 7.

The following players are asked to report at the arena at 6.30.

Stubby's—Dale Harton, Jim Leyser, John Dunnaway, Jim Shepherd, Wayne Humber, Brian Winsby, Gary Martin, Bill Clark, John Moser, Brian Seaven, Allan Beaven, Ricky Hodgkinson, Tom Black, Bill Jones, Al Hinchin.

Cougars—Bill Fisher, Pat Green, Bill Oliver, Don Murray, Doug Richardson, Dave Richardson, Ken Piercey, Paul Collett, Dave Collett, Bill Wirtanen, Bob Fisher, W. Collier, Merv Holding, Jim Lowen.

First game of the best-of-three Island final series is scheduled to start at 3.30, while the second will begin at 6. Third game, if necessary, will be played at Nanaimo Sunday.

Nanaimo, having defeated Sidney and Copley Bros. in exhibition games here and downed individuals once in Nanaimo, will be strong contenders for the title.

Sunday Copley Bros. will be at home to a Port Angeles club in a twin bill starting at 2. Second game is slated for 4.

Building a young club. "We're going with kids this year," he said, "and we will be drawing part of our team from the high school."

Last year's Alberni High School Champions was one of the best prep teams ever produced on the Island and went to the Canadian junior championship before bowing.

Best players on that team were Laurie Veitch, a former Victorian; Claude Chick, high-scoring guard, and forwards Dave Williamson and Jack Mossell. Any one or all of these players may be on the senior club this season.

## Shamrocks, Pils Primed For Boxa Final Tonight

### Irish Risk 19-Game Win Streak

Having cleared one formidable hurdle—the Nanaimo Native Sons—Victoria Shamrocks tonight find themselves facing another, and even more awesome barrier, in their climb to the Canadian lacrosse championship—the Vancouver Pilseners.

Tonight at Memorial Arena the Shamrocks will offer as testimony to their playoff rights a 19-game home winning streak. Winners of all 16 home games during the league schedule, the Rocks captured all three Memorial Arena games in their semifinal victory over Nanaimo to extend their unprecedented skein.

And with the Rocks, who finished in first place in the final standings, having the advantage of an extra home game in their seven-game set with Pils, the addition of home victory number twenty tonight is of prime importance.

A Shamrock loss tonight would greatly nullify the advantage of the odd home date.

Odds on the first game will fluctuate until it is decided definitely if Larry Booth will be playing tonight. Stricken with an undetermined illness, Booth was forced to miss the last two games of the semifinal series.

Shamrock coach Red McMillan reported this morning that he would not know until late in the day whether Booth would be strong enough for the game. If he does not play, his place on the first string line will be taken by either Al Gill or Harry Irwin.

Most important factor in Shamrocks' favor tonight will be sudden revitalization of the entire club in the last game of the Inter-city Lacrosse in the first four games of the series, the Rocks looked at peak form in their 11-4 victory and spirit of the club was at its highest of the season.

McMillan, taking into consideration the big advantage in height and weight Pils will hold in the series, plans to have the Irish running at top speed. "We'll have to try to run them off their feet. That's the best bet against a club of their size but the only trouble is that they are fast as well as big."

Over the season, Shamrocks have defeated Pilseners four times in Victoria but have dropped three out of four games in Vancouver.

### SPORTS MENU

**TONIGHT**

2.30—University School, Alcos vs. Five C's.

**SOUTHPAW GOLF TOURNAMENT**  
PORTAGE LA PRAIRIE (CP)—Canada's left-handed golfers are at last coming into their own. Portage Golf Club will stage a Canadian championship tourney for southpaw men only Sept. 13.

The Western International League season will tilt again Thursday night lifting Lewiston Broncs back atop the standings and dropping Spokane into the runner-up slot.

The Broncs regained first place with their 9-7 triumph over Victoria while Spokane was bowing 5-1 at Yakima.

The night's activities left Lewiston 16 percentage points ahead of the Indians.

The faltering Salem Senators meanwhile lost a doubleheader to Edmonton 6-3 and 3-1 and fell three games back of the leaders. Tri-City shut out Calgary 4-0 in the league's other scheduled game.

Yakima snapped a five-game losing streak with its victory over Spokane. Home runs by John Albini and Herman Lewis were key blows.

Home runs decided both games at Salem. Sam Kanelos' three-run homer in the third inning of the abbreviated

## COUGARS TO OPEN WHL SEASON AT VANCOUVER

SEATTLE (CP)—The seven-team Western Hockey League will open its sixth year as a professional loop at Saskatoon Monday, Oct. 5.

Calgary Stampede will tangle with the Quakers in the opening tilt, then journey to Edmonton to meet the Flyers the following night, while Victoria Cougars help Vancouver Canucks inaugurate the season in B.C.'s largest centre.

### BRONCS CLIP TYEES

## John Laughs, And Why Not?

Lewiston 9, Victoria 7  
BY BILL WALKER

"Hey John, show us your curls," a raucous voice from the grandstand cried Thursday night as Javin' John Marshall bounced in from the rightfield bullpen at Athletic Park.

"Or are you like the rest of the old men on your club—BALD?" the heckler continued as John spat a vindictive at his unknown assailant.

But bald or not, aged or not, John and his Lewiston Broncs had the laugh when they broke a 7-7 tie in the ninth to defeat the Tyeys, 9-7.

And it was old-man Marshall, with skin where his curls once wrinkled, who laughed the loudest, as he stifled a Tyeey threat which had produced two runs in the eighth inning.

He slammed the door shut as the Tyeys looked like they might go ahead. He swaggered a little more as the Broncs scored their pair in the ninth and the final three Tyeys were retired. For John was the winner—his 19th triumph of the season.

Home from an extended road trip and boasting 26 innings of shutout ball against the Vancouver Caps in their last three games, the Tyeys shot Bill Prior at the Broncs' lacrosse in the first four games of the series, the Rocks looked at peak form in their 11-4 victory and spirit of the club was at its highest of the season.

McMillan, taking into consideration the big advantage in height and weight Pils will hold in the series, plans to have the Irish running at top speed. "We'll have to try to run them off their feet. That's the best bet against a club of their size but the only trouble is that they are fast as well as big."

Over the season, Shamrocks have defeated Pilseners four times in Victoria but have dropped three out of four games in Vancouver.

**SOFTBALL**  
2.30—Lower Central Park, Individuals vs. Lewiston Broncs, Vancouver Island championship series.

**CRICKET**  
2.30—University School, Alcos vs. Five C's.

**SOUTHPAW GOLF TOURNAMENT**  
PORTAGE LA PRAIRIE (CP)—Canada's left-handed golfers are at last coming into their own. Portage Golf Club will stage a Canadian championship tourney for southpaw men only Sept. 13.

The Western International League season will tilt again Thursday night lifting Lewiston Broncs back atop the standings and dropping Spokane into the runner-up slot.

The Broncs regained first place with their 9-7 triumph over Victoria while Spokane was bowing 5-1 at Yakima.

The night's activities left Lewiston 16 percentage points ahead of the Indians.

The faltering Salem Senators meanwhile lost a doubleheader to Edmonton 6-3 and 3-1 and fell three games back of the leaders. Tri-City shut out Calgary 4-0 in the league's other scheduled game.

Yakima snapped a five-game losing streak with its victory over Spokane. Home runs by John Albini and Herman Lewis were key blows.

Home runs decided both games at Salem. Sam Kanelos' three-run homer in the third inning of the abbreviated

## Mainland Team at Peak Now

Johnny Cavallin's Vancouver Pilseners are much like income tax. They are in the back of your mind all year, you know you will have to face them sooner or later but they always turn out to be much tougher than you expected them to be.

So it is with the Pils, who will be here tonight to face Victoria Shamrocks in the first game of the best-of-seven series for the Inter-city Lacrosse League championship and the right to face an eastern champ for the Mann Cup.

Content to let matters take care of themselves during the regular season, the Pils can be pure poison when playoff time comes nigh. Their theory seems to be, hide your light under a bushel but when the time comes, shoot the full voltage into your opponent's eyes.

Pils, who failed to win a game in Victoria this season, finished second in the league standings, overhauling PNE Indians for the runner-up spot in their last meeting of the season.

They then disposed of the Indians in four games of the best-of-five semifinal.

The biggest club in the league physically, Pils are also about the deepest in experience and it is this experience that stands them in good stead during a money series.

### AT FULL STRENGTH

Cavallin, stating that his club was "hot to go," said Thursday that he planned to bring 13 players to Victoria but was not certain which ones would dress for the game. Big Jack Green will be in goal, that much is for sure, and he can call on battle-seasoned defense stars like tiny Harry Buchanan, play-making Jack Byford, Denny Huddleston, the biggest player in the league, and high-scoring Jim Swanson.

Among the forwards are scoring threats like Ernie Smith, Bobby Marsh, Bill Stuart, Ed Hanson and Bert Ticehurst. Kenny Webb, Alex McKay and Dave Redline will not make the trip for tonight's game, but will be available for later duty.

### NO PREDICTION, BUT

"I won't predict anything right now," said Cavallin Thursday, "but we came closer than any other team in the league to beating the Shamrocks on their home floor. And my club right now is playing the best lacrosse they have shown me all season. That 19-game winning streak is due to go."

### UTILITY LEAGUE CHAMPS

Hospital Insurance Service Remnants are the new champions of the Civil Service Men's Softball League.

Remnants copped the title Thursday night by downing Air Surveys, 6-5, behind the hurling of Hal Yardley to take a best-of-five championship series in four games.

### SOFTBALL SHENNANIGANS

## Umpire, Coach Agree to Disagree

Disciplinary action may be taken as a result of unscheduled fireworks during Thursday night's Senior B Men's Softball League city championship playoff game between Tillikums and Joe Posters at Heywood Avenue.

Bill Young, Posters' base coach, was ejected from the game by base umpire Fred Tooby for reportedly using profane language.

However, the coach later returned to the field and is said to have threatened the umpire, whom Young again accosted after the game. It has been learned Tooby is filing a report of the incident to league headquarters.

Tillikums, league and Island champs, went one game up in their best-of-five final with Posters for the playoff crown by walking to a 10-3 victory.

Both clubs picked up seven hits but Tillikums stretched theirs with the aid of 12 walks doled out to them by Posters' pitchers Earl King and Bob Lyons.

John Oliver went the route for Tillikums, giving up three walks.

Tillikums scored three runs in the second inning on a triple by Bill Meriuk, single by Don Wilkie, double by Joe Clackson and a walk and outfield fly to take a lead they never gave up.

Clarkson led Tillikums at the plate with two singles and a double, while Bob Embleton hit three singles for Posters.

Second game of the series is scheduled

## Car Borrower Given 'Break' by Magistrate

Robert W. Woodford, Victoria, was given one year's suspended sentence when he came before Magistrate A. I. Thomas in Saanich police court Thursday for sentencing on a charge of taking a car without the owner's consent.

Woodford earlier had pleaded guilty to the charge. "I'm going to give you a break," the magistrate said. As conditions of the suspension, he required Woodford to refrain from all liquor for a year, apply himself to useful employment, and report monthly to the probation officer. "If you break any of these stipulations, you'll be brought before me and dealt with severely," the magistrate cautioned.

**STAND BACK, FOLKS**  
MIRA, N.S. (CP)—Mrs. Lauchie MacDonald, pitching right-handed scored 13 of 30 points to win the Cape Breton county rolling-pin throwing contest. She socked the dummy between the eyes on one toss and flush on the chin with another.

**QUICK THINKING**—Air Force Capt. Austin J. King of San Rafael, Calif., demonstrates how he possibly saved 11 lives by replacing the leaking hydraulic fluid of his C-46 transport with salad oil while in flight near Seoul, Korea. The salad oil, part of the plane's cargo, served to lower the aircraft's landing gear when it failed to function normally.

## 'SLOW DOWN, COPS'

**Youths Charged With Warning Fast Drivers**

WINNIPEG (CP)—An RCMP road patrol, investigating complaints of speeding motorists in a 30-mile-an-hour zone near West Hawk Lake, sat for several hours without any success.

Further investigation back towards the start of the restricted zone revealed four youths were warning motorists entering the zone at a high rate of speed to "slow down, cops."

Charges were laid against all four, and Thursday in police court here one of the youths, a juvenile, was acquitted of obstructing a police officer in the execution of his duty. Charges against the other three will be heard at a later date. Dismissing the charge, Magistrate D. C. M. Kyle said there was insufficient evidence to convict.

## Victorians to Ride In Mainland Show

Seven Victorians will participate in the Vancouver International Horse Show scheduled for Sept. 23, 24, 25 and 26 at Exhibition Park Forum.

Included in the group will be Fred Ball, who will ride Gamelin in the Vancouver show, the same mount he had last week when he captured top honors at a Chilliwick show.

Others from here will be Miss Terry Castle and her horse, Rogue; Jack Simpson and Bearx, C. C. Carpenter and Polly, Mr. and Mrs. R. Shanks with Venture and Viking, and Miss Ann Cavenagh with Wendy Gyp.

## Children of War Dead Get Education Aid

Sons and daughters of Canada's 60,000 war dead can obtain assistance in education under new legislation recently passed by the federal government, J. G. McKay, head of the welfare service of the department of veterans' affairs here, told representatives of servicemen's organizations Thursday.

The new legislation provides assistance to children whose fathers died while serving with air, sea or land forces, or the merchant navy, and those who died after being discharged with disability pensions, providing they were in receipt of a 50 per cent or more pensionable disability, he explained.

Mr. McKay said educational grants up to \$500 will be made to children. The age limit is 25, where it might be necessary to enable a person to complete the academic year in which he attains that age, he said.

Under the scheme, Mr. McKay said, students will receive \$25 a month and a Canadian pension of between \$40 and \$50 a month. He added that these grants will be paid for 36 months or for academic terms.

"We will leave to help any cases where educational assistance is needed," said Mr. McKay. "Bring cases to our notice and we will do what we can."

## PRIEST'S PLEDGE SAVES SAILOR

**Man Atop High Lamp Post Wanted Love... or Death**

NEW YORK (AP)—A seaman reigned over a scene of confusion today by perching atop a 30-foot lamp post and demanding that somebody find his girl friend and bring her to him.

Christopher McDonald, 24, of New York, stayed aloft for an hour as though in a crow's nest then finally shimmied down at the entreaty of a priest.

By that time, hundreds of pedestrians had gathered below him at Eighth Avenue and 23rd Street.

Thirty policemen arrived with nets. Traffic became unruly.

"Why don't you come down," shouted patrolman Michael Littman.

"If you get my girl, Mary, I'll come down," said McDonald. "Then he added:

"I'd rather die young than grow old without her."

A bystander tried another approach. He waved a bottle of whiskey and yelled: "Come on down. Here it is."

Passengers in a bus stalled in

ST. TROPEZ, France (CP)—A tip from a local jeweler today gave French police their first real clue to the identity of two armed men who pulled off the most daring Riviera jewel robbery in years.

Armed with this new information, mysteriously offered late Thursday night, police were concentrating their search at two places nearby Sainte Maxime and fashionable Cannes, further east along this resort-lined coast known as the "playground of millionaires."

The two bandits got away Tuesday night with \$300,000 worth of jewels from the safe of the plush Hotel Aloli here.

Paris jeweler Paul Hyat and his wife owned the bulk of the gems stored in the safe.

Hyat, who has offered a reward of \$14,000 for recovery of the jewels, today appealed to the thieves not to "break them up" because they might then lose 70 per cent of their value.

The investigation has been hampered by the near-sightedness of the elderly proprietress of the hotel. She said the two men entered her room through a balcony window, but she could only give a vague description of the robbers, despite the fact that she was forced at gunpoint to put on her glasses to open the safe.

## Kiddies Among Best Anti-Polio Workers

Children, who are most often stricken when poliomyelitis hits a community, have been among the hardest workers and most regular contributors to the Vic Van Isle Kinsman Fund.

Polio Fund chairman Ed Beregeron, said today that tiny anti-polio workers have been active with lemonade stands and backyard concerts all over the city.

One group of 16 amateur actors raised \$34.30. They split the proceeds with Uncle Ed's Milk Fund and sent \$17.15 to the Spencer House office of the polio fund.

They were David Davies, Arlene Miller, Linda Slocomb, Heather Morley, Marion Manson, Michael Miller, Ricky Gough, Sharon Manson, Susan Miller, Joanne Davies, Ricky Gilman, Walter Slocomb, Bruce Morley, J. V. Haslam, Gordon Frampton and James Slocomb.

Two afternoons at the corner of Hampshire and Windsor with their soft drink stand kept Bonnie Jamieson, Bill and Ron-

nie Burns, Patsy and Johnnie Mace busy as bees they said. They raised \$6 for the fund.

## HE NEEDS IT

LONDON (CP)—Among items in the latest list of the "lost property" office at London airport is a book on memory training.

## What you should know — about women

Realize in the last generation there's been a change in the manner many women face life and man? That a growing number make their own way, ask no odds of any male? That the new model is essentially still every bit as female as the old?

In September Reader's Digest, there's a provocative article on today's woman which should be of timely interest to every adult male.

Here's the key to lasting happiness between any man and woman. Get your copy of September Reader's Digest today: 45 articles of lasting interest, condensed from leading magazines, current books

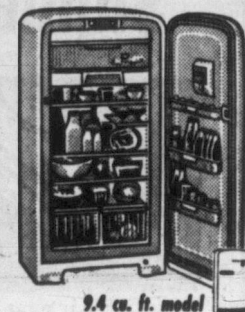

## FEAR OF SIREN BRINGS DEATH

PORT CREDIT, Ont. (BUP)—Mrs. Elizabeth Delworth, 72, of Toronto, froze in fear of a siren Thursday and was killed by an ambulance speeding an emergency case to hospital.

### Totem Theatre Stars

Producer Thor Arngren on stage as "Bill Tremaine" in Totem Theatre's current hit "For Love or Money," lights a cigarette for glamorous Muriel Ontkian in a scene from the comedy which closes Saturday night after delighting capacity audiences all this week. (Photo by Eric Skipsey.)

### Sailors Branded 'Reds' Claim SIU Denies Appeal

NANAIMO—Two sailors, R. McMillan and R. McLellan, who claim they were ousted from employment aboard the Mv Kah-loke, have charged they have been unable to obtain a review of their cases by the Seafarers' International Union (TLC).

An article in "The Canadian Sailor" has branded them as "Reds," which is not true, they said.

They said they were formerly members of the West Coast Seamen's Union, but had applied for membership in the SIU.

Since the SIU was successful

### Vancouver Will Be Joined by Air To Major Centres

VANCOUVER (CP)—Direct airline ties will join Vancouver and other Pacific Northwest cities with major commercial centres of the Southwest for the first time in September when interchange operations are begun by United Air Lines, Continental Air Lines and Braniff International Airways, officials of the three lines announced Thursday.

Less than 11 hours will separate Vancouver from Tulsa under the new service.

Flights from Vancouver will connect with the interchange trips at Seattle-Tacoma, from which point travelers and cargo will be flown directly to six southwestern cities.

### N.Y. Father Shoots Wife, Two Sons And Then Himself

NEW YORK (UP)—A five-year-old boy died of a bullet wound in the brain Thursday night, following in death his mother and father and older brother in what police described as a triple murder and suicide.

Jack B. Howard, 38, who had been undergoing psychiatric treatment for several months, shot his wife and the two boys and then shot himself with a .38-calibre pistol. Howard and his wife were dead when a neighbor, attracted by the shots, broke into the apartment.

### Insurance Men And Wives To Convene Here

How much does your wife know about your work?

If you were an "associate" of the California-Western States Life Insurance Company she would not only be expected to know what you did, she might well have to take an active part herself.

This week-end 400 men, women and children from the United States will arrive at the Empress Hotel for a three-day stay in Victoria.

They are here for the El Capitan Club convention. Members of the club are the top 132 agents of the California-Western States Life Insurance Company—128 men and four women who have sold more insurance than the remaining 268 agents of the company.

### ADVANCE MAN HERE

Already here is an advance guard consisting of Thomas J. Hammer, director of the agency service and Everett Rutherford, the company purchasing agent. They have been responsible for making all the arrangements for the convention.

Members of the club were urged to bring their wives if possible. This is part of the policy of the company.

No new man is taken on unless his wife has first been interviewed as well.

As it happens one of the main features of the program is especially for wives:

On Monday Stella Gibbs, assistant director of training and education will act as moderator for a discussion group consisting of members' wives.

The object of the discussion, which is entitled "Mama Speaks Her Piece," is to show how a wife can be more helpful to her husband in the life insurance business.

### BIG REUNION

VERA, Sask (CP)—Four brothers, all originally from Dundee, Scotland, held their first reunion in 49 years here. They are A. R. Keay of South Africa, W. R. Keay of London, England; Fred Keay of Midland, Ont., and David Keay of Vera.

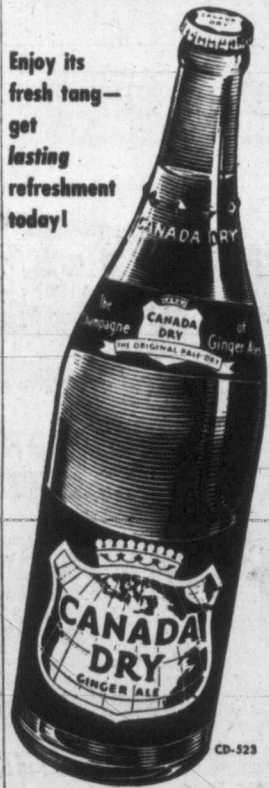

### Eat a bigger breakfast—and be thin

Usually take fruit-juice, toast and coffee? You're paving the way to a mid-morning snack, heavy lunch, huge dinner—and added pounds.

In September Reader's Digest, two nutrition experts explode some popular theories about dieting—show why skimpy breakfasts may be one cause for shocking number of overweight adults—how in the long run a hearty morning meal will help you lose weight.

Get September Reader's Digest today: 45 articles of lasting interest, condensed from leading magazines, current books.

### Everybody's favorite!

## BETWEEN TIMES

By MONTE ROBERTS

Bill Oosterink, son of the Victoria building inspector of the same name, was once a carpenter in this city. One day a large timber fell on his leg, causing him considerable pain and anguish, and Bill said: "The blazes with this profession. It is much too dangerous for a man who cherishes life and limb."

So Bill cast about him for another career, and I am glad to report he is now doing very well. He is a hell-driver with Joey Chitwood's auto dargdevils.

An article in the current issue of a national magazine refers to Jack Benny as the most misunderstood man in the world.

As an example, the article states he doesn't drive an ancient Maxwell, No. 12, he has a '32 Cadillac for himself, a '33 for his wife, and a Pontiac for his daughter.

I should be so misunderstood.

People WILL keep sending me poems. But in this case, the purpose of the verse is so sound, I'm glad to print it here.

S. A. Last, 2532 Empire Street, writes: "I received the following lines from a friend, and being a returned man, know how welcome a letter is. I thought this verse would touch some of those who should write to those far away, serving with the armed forces."

I ought to hide my head in shame—  
I really think I'd better!  
For I'm the one who is to blame  
'Cause you don't get a letter!

I hawl me out in terms unkind—  
Sometimes I even CUSS;  
But me—I just don't seem to mind  
No matter how I fuss.

And so today I got real tough  
And grabbed me by the throat,  
Sez I, "You've fiddled long enough—  
You get that letter wrote!"

"And don't you move until you're through  
No matter if you sit  
Until you've blisters on your seat—  
You get that letter writ!"

And so I'm getting busy here  
A-thinking up the news  
So I can get this letter off  
So you'll know I think of you!

A news story the other day reported: "On the back seat was a new woman's suit in a box..."

There's nothing like a smart suit to make her feel like a new woman.

## WORKERS WRECK WRONG GARAGE; BUT TWO WRONGS MAKE A RIGHT

A wrecking crew which knocked down the wrong building almost caused some red faces in the Esquimalt public works department Thursday.

Men were sent out to tear down an abandoned garage on Skinner's Flats, property which reverted to the municipality long ago. The garage was considered a menace to children.

When nothing was left but a pile of rubble it was learned the wrong garage had been demolished.

Later investigation proved both garages were municipally owned and in a tottery state, so the men reported back for work this morning.

## TOPICS OF THE TIMES

Donald Gordon, president of the Canadian National Railways, will speak to a joint meeting of the Rotary Club and the Chamber of Commerce at noon Thursday, Sept. 3, at the Empress Hotel. Mr. Gordon's subject will be "The Tyranny of Change."

Bob Stenel, aged 16, of 939 Pemberton Road, reported to city police Thursday that while on his way home from work he lost \$20, which represented his first pay.

William Gordon John of Sidney paid a \$5 fine when he pleaded guilty in court today to driving a truck without a proper tail light.

John V. Grant, No. 6, 2914 Douglas Street, was remanded without plea until Monday when he appeared in city police court this morning on a charge of impaired driving.

Grant was taken into police custody Thursday night following an accident on Gorge Road, near Fountain Circle. According to police, Grant's car was in collision with another, driven by Tara Singh, 2526 Government Street. Medium damage resulted.

Walter W. Rowe, Camosun Street, was fined \$20 in city police court today for assaulting Miss Constance Stevenson. Rowe pleaded guilty through counsel.

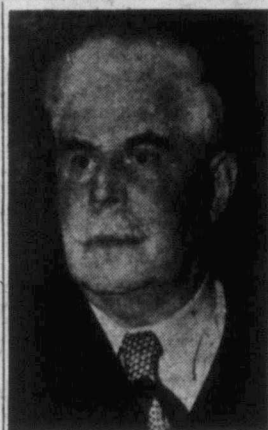

Miss Stevenson complained Rowe came to the office where she worked, and after a scene outside, hit her two or three times across the face.

Macaulay bend section of Esquimalt Road, will be closed again to traffic for a few days next week.

Municipal engineer John Graeme, announced today that barriers will be replaced on the reconstructed area while connections are made to water, gas and storm drains from homes along the street. The mains are already in.

No estimate was available as to when paving will begin.

Department of Transport reports that the Red Spar buoy at Sidney, and the Nell Ledge can buoy, have both been replaced in their charted positions.

GEORGE E. BONNER

## CLUES FOR DAD

### Puzzling Report Cards Explained

British Columbia parents next school term will get coaching in how to translate their children's report cards.

Education Minister Tilly Roston said today enclosures will be made in report cards explaining to parents how to unscramble the markings and find out where their youngsters stand in their grades, and how they're progressing.

"Present report cards are confusing. We will include a little instruction in each report card to explain it more fully to parents," the minister said. She added that her department will review the cards in the next year and try to strike a happy medium between grading percentage-wise and according to ability.

## NO LABEL

Education officials have steered away from giving set marks for grades because, they feel, that system labels a child. They point out that a child's progress in school courses is only one phase of his over-all character.

But parents have criticized the present system, which grades a child's progress according to his native ability and environment, because they can't understand it.

The explanatory notes to be included in the report cards starting this term will explain to parents that even if a child gets a "U" for unsatisfactory growth he isn't necessarily dull.

## Suspended Sentence For Victoria Man In Margarine Case

A six months' suspended sentence was given Robert Davenport, 21, of 1010 Empress Avenue, when he appeared in city police court today on a charge of retaining stolen goods under the value of \$25.

Davenport earlier pleaded guilty.

He was charged by city detectives who found in his car a case of margarine, the property of W. H. Malkin Co., valued at \$8. Davenport said he bought it from another man for \$5.

"You can consider yourself fortunate," Magistrate A. I. Thomas cautioned as he pronounced the suspended sentence. Davenport will be required to post a \$500 bond to keep the peace for the six-month period.

## E & N, Busline Battle?

### Island May See Transport War

Threats of a competing bus and truck service on Vancouver Island were raised today following word that the E. & N. Railway plans to apply for cessation of its train-passenger and express service between Parksville and Port Alberni.

C. L. Burpee, E. & N. district passenger agent, said at a Port Alberni meeting Wednesday that lack of patronage on the train was forcing the move.

The existing passenger bus service (Vancouver Island Coach Lines) was adequate to handle passengers if the train service were discontinued, he said.

George E. Bonner, Cobble Hill, Vancouver Island Ratepayers' Association president, said today the association will file a brief against the railway's submission, to the federal board of transport commissioners.

## MONOPOLY

"They consider they have a monopoly through the railway and coach line, both owned by the CPR," Mr. Bonner said.

"The association is going to support the issue of a competing truck and bus service," Mr. Bonner continued. "There was a movement afoot by a Vancouver firm six months ago to establish a service on the island."

It's up to us to see that competition is provided, and right now we do not get the service we want from Island Freight Ltd. (also controlled by the CPR).

Mr. Bonner argued that the railroad was being subsidized by the government, "therefore how can they stop what we're paying for? It's our roadbed."

Mr. Burpee told the Port Alberni meeting, attended by civic officials and others of the Alberni, that the company was prepared to let a contract for express delivery between Port Alberni and Nanaimo.

Mayor Loran K. Jordan of Port Alberni questioned whether the contract establishing land grants in the name of the E. & N. bound the company to continue passenger service.

## GIVE UP RIGHTS

If curtailment of the service were allowed, then the company should give up some of its rights, said Mayor Ben Wright of Alberni.

Ed Homewood remarked that he had seen the first train arrive in Port Alberni in 1911, and that nothing had been done since to improve the service.

Ald. E. J. Luckhurst, Alberni, claimed the company should offer to provide emergency service in the event of the highway being blocked for any reason.

Railway officials said terms of the railway company brief to the transport commissioners would be submitted to Alberni Valley organizations before a decision was made.

RECENTLY APPOINTED Sister Superior at St. Joseph's Hospital, Sister Mary Angelus

comes here direct from a recent hospital administration course at Macdonald College, Quebec. She has also served with the Sisters of St. Ann at the Little Flower Academy in Vancouver and, was for two years superior at St. Martin's Hospital at Oliver, where her predecessor at St. Joseph's, Sister Rose Mary, has been transferred. (Times Photo.)

## Premier Denies Stricter BCHS Enforcement

A Prince Rupert report that the provincial government will enforce compulsory hospital insurance was denied today by Premier W. A. C. Bennett.

The report quoted Prince Rupert hospital board chairman R. G. Moore as saying the premier had told the board he proposed to have payment of premiums put on a more compulsory basis.

Premier Bennett explained today he was referring only to the government's already announced policy to expand compulsory payroll deductions.

The premier said the government is following its plan to abolish arrears in order to encourage people not on compulsory payroll deduction to pay the current premium and get the benefits of hospital insurance.

## BAD DEBTS

The Prince Rupert board complained to the premier that the hospital had a number of bad debts incurred as a result of non-insured patients failing to meet their obligations.

Premier Bennett explained that the expansion of the payroll deduction method will be undertaken first in areas where there have been a large number of non-insured patients entering hospital.

Prince Rupert, because of its fairly high transient population, falls into this category and this will be one of the first to feel the effect of the new policy. Other northern areas also will be affected.

## DEDUCTIONS

One of the chief complaints against the government's present system is that premium payment is compulsory for workers through payroll deduction, but voluntary for those who are not.

The payroll deduction system is actually the only compulsory feature left in the scheme. By expanding this, it means, in effect, more compulsion is being inserted into the plan.

Premier Bennett had no figures immediately available on the percentage of non-insured patients entering hospitals. He expected, however, the information will be made available during the September session.

## Vancouver Island Soldier Among Korea Returnees

One Vancouver Island man will be among 205 Canadian troops who will return from the Korean War theatre by troopship Saturday.

Spr. H. W. Rickard, RCE, Florence Lake Road, Langford, will be aboard the ship which will dock in Seattle some time Saturday.

The men are all veterans of service in Japan and Korea with the 25th Canadian Infantry Brigade. They will all travel to Vancouver on special buses for final processing at No. 11 Personnel Depot and will leave for home the same day.

## Peak of Polio May Be Passed, Officials Hope

No new cases of polio have been reported in the Greater Victoria area since the first of the week and health officials are hopeful that the disease may be "levelling off."

City health officer, Dr. J. L. Gayton, said today that the disease reached its peak around August 2 and if the present trend continues will be rated at zero by next week-end.

Fifty-four cases have been noted on the Island this year, 43 in this area.

## Beacon Hill Look-Out Development Seen

### Park May Get Restaurant If Funds Available—Warren

By AILEEN CAMPBELL

Future development of Beacon Hill Park Look-Out area to include a restaurant and comfortable facilities for year-round enjoyment of checkers and other "passive games" was envisioned by Parks Administrator W. H. Warren today.

"There should be a look-out on a much more pretentious scale than at present."

"I would favor erection of a building on the south face of the hill, which gives a commanding view of the sea. I would like to see a restaurant there when legal technicalities are hurdled, together with a public restroom and other facilities."

Mr. Warren made the comments when asked about the possibility of providing lighting and heat in the present look-out building for convenience of checker and crib players who meet there daily.

"The question involves development of the whole top of the hill," he said.

## COST EXCESSIVE

The \$250 cost of laying 1,000 feet of underground cable for lighting and the supervision that would be necessary were the look-out heated and kept open longer, he felt would be excessive at present.

"We simply haven't the money."

After reading the story in Thursday night's Victoria Times, on the "Crib, Crab and Checker Club" of the Look-Out, whose members wished for a little light and heat, a reader offered to donate a stove.

"We can't just put a stove in and forget it," said Mr. Warren. "Vandals would come in, light up a fire and then what?"

"Our biggest problem at that point is difficulty of supervision. We replace half a dozen to a dozen broken windows twice a month, the year round."

At present doors are locked at dusk by a commissionaire and reopened at 8 in the morning.

Several years ago plans for a new building were sketched and cost was estimated at \$16,000. It was merely for the shell, however, and did not include fittings, furnishings or cost of 1,000 feet of sewer pipe connection.

Mr. Warren could give no estimate of what it would cost today to erect a two-level building with a restaurant on one floor and a public comfort station below. He feels the site is ideal for a modern, up-to-date "restaurant with a view."

Here, he hopes, will be the legal department, however.

## Saanich Workers Near Agreement With Employers

A final settlement between Saanich municipal employees and Saanich Council appeared likely today as the result of a decision taken at a special meeting of union officials Thursday.

Union officials decided to recommend to members of the association that they accept the council's proposal that some of the outside workers be taken off monthly pay and put on hourly pay.

This point has held up the signing of a 1953 working contract between the council and the association. Union members in the past have objected to the council's proposal that 20 members of the works department be put on hourly pay. These men have been paid by the month in the past.

Union officials said a meeting of the association will soon be called to settle this point.

## Six-Year-Old Boy Recovering From Collision Injuries

Condition of six-year-old Buddy Lee Sutton, injured Thursday night in a traffic accident, was described by Jubilee Hospital officials today as "satisfactory."

The child sustained a fractured left arm and leg and internal injuries when in collision at about 6 p.m. with a car driven by Joseph A. H. Fortune, a visitor from Chehalis, Wash.

According to police, Buddy ran out onto the road from between two parked cars. The accident occurred on Kings Road, near Douglas.

## Bennett Satisfied

Premier W. A. C. Bennett doesn't think Social Credit's showing in B.C. in the federal election was so rusty.

"No movement ever made such fast headway in B.C.," he said today as he received a final analysis of the election results.

Social Credit, he said, jumped from getting one-half of 1 per cent of the votes in 1949 to 25.9 per cent in 1953.

Others: Liberals 36.5 per cent in 1949, and 29.9 per cent in 1953; CCF 31.5 per cent in 1949, and 25.8 per cent in 1953; Progressive Conservatives 28 per cent in 1949, and 16.3 per cent in 1953.

Anyone wishing a question answered is invited to send the question along to The Times, addressed to "Ask The Times" Editor. Questions and answers will be published daily.

All questions should deal with matters of fact and be of general interest.

## Derby Entries Start to Move For Big Event

### Cost of Living Isn't Helped By Coin Gulper

By AILEEN CAMPBELL

The high cost-of-living was emphasized this morning in St. Joseph's Hospital emergency ward by Frederick Godard, three, of 488 Swinford Street.

Pennies, nickles and even dimes are common fare for hungry toddlers, but X-rays proved that Freddie had gulped a quarter, setting a new high.

No surgery was required.

## Woman in Hospital, Man in Custody After Car Fracas

City police are holding James Ross, 570 Yates Street, on a charge of assaulting and causing grievous bodily harm to Jean Cooper, 1322 Blanshard Street, who sustained injury when witnesses say, she was pushed out of a car at Tolmie and Douglas near midnight last night.

Ross was formally charged in police court this morning. He pleaded not guilty but later withdrew the plea and was remanded until next week.

Miss Cooper is in St. Joseph's Hospital. Her condition is good.

According to what evidence police have from witnesses, Miss Cooper was pushed from the car while it was stopped. Other witnesses said they were attracted to the car as it was proceeding north on Douglas, toward Tolmie, since a screaming woman was hanging out the left, rear side.

## SHOPPING GUIDE

Better Produce at Low Prices  
If You Take Time to Shop...

By PENNY SAVER

What happened to the Gravenstein apples, may I ask? Got quite a shock when I looked at the price today. Don't get me wrong now, I'm not kicking, and you won't be either, when you get a load of this! They're selling at 10 cents a pound, now. Last time I saw them they were two pounds for 45 cents... quite a drop, eh! Gravensteins are luscious in a pie and make for mighty good eating right off the core, too! Buy now.

I'm full of surprises today! Take a guess at the price of seedless green grapes... nope! You're wrong. Ones I saw are only 17 cents a pound and they are firm and sweet, too. You won't find them that low at all stores, mind you, for I also spotted grapes of a similar quality selling for 25 cents a pound. Best bet is to shop around... you'd be surprised, even shocked, at some of the price differences. By comparing prices, mother, you'll save a lot of money.

Compare some of these prices with those of your favorite grocery store and see how they stack up: Peaches are four for 25 cents; blueberries are 35 cents a half-pint; blackberries are two half-pints for 35 cents (exactly half the price they were last week); pears are four for 25 cents; medium-size cantaloupes are 20 cents each; oranges are 29 cents a dozen; bananas are two pounds for 35 cents; Italian prune plums are 18 cents a pound; golden egg plums are 20 cents a pound; green grapes are three pounds for 25 cents and transparent apples are three pounds for 29 cents.

There's been no drastic price changes in vegetables this week, although you'll find a difference in vegetable prices, depending upon where you shop. So for your convenience, I'll give you some to compare. Carrots are two bunches for 15 cents; peas are 15 cents a pound; string beans are 20 cents a pound; turnips are 20 cents a pound; potatoes are 10 pounds for 39 cents; sweet potatoes are 25 cents a pound; squash and cabbage are both 8 cents a pound; corn is four cobs for 29 cents and tomatoes are 40 cents a pound.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

Am I Too Young at 16  
To Be Using Lipstick?

Q.—"Please give me one good ankle and leg exercise."

A.—This is a good one. Simply walk about the room briskly, swinging your legs with stiff

Ten complete patterns to sew, embroider, crochet—printed right in the Alice Brooks Needlecraft Book! Plus many more patterns to send for—including ideas for gifts, home accessories, toys, fashions! Send 25c now!

knees and placing your heels on the floor first on each step. Snap the toes down decidedly. Make the two movements distinct—heel-toe, heel-toe.

Q.—"I am 16 years old and my mother still thinks that I am too young to wear lipstick. Will you give your opinion?"

A.—I do not think that most young women of that age need lipstick but I do think most of them use it. I can understand why, if you are the only one in your crowd who does not, you might be unhappy about it. Why not compromise? Perhaps you have naturally vivid coloring. If so take advantage of it by leaving lipstick off except for evening occasions. If you really need some color perhaps your mother will compromise with you by allowing you to use one of the lovely soft shades. These are much prettier on young women anyway.

Q.—"I am 12 years old and I just do not understand why I do not have any bust. My friend next door has one and I would hate to think that I will go through life without one."

A.—Relax. You won't be patient. Few girls your age have developed a bustline. Give nature time.

Q.—"After every summer I have calluses on my feet which are ugly and uncomfortable. I use a lotion or cream on them all the time, too. How can I avoid this?"

A.—I think you have this experience because you wear play shoes which are very skimpily and probably inexpensive, all summer long. Some of the inexpensive ones have irritating "insides." Also your feet need more support more of the time. Why not try wearing play shoes less often and using a real shoe more often?

Q.—"I swim a lot and like to get a good suntan but the light places left where my swimming suit straps go look awful in an evening dress. What can I do?"

A.—This will take a little time. The only thing to do is to suntan in privacy so that you can take your straps down. Also you can cover the white places with makeup.

Useful Separates  
Sometimes Wrong

Separates have become famous for their adaptability to your life, their capacity to enlarge your wardrobe, and their general youthful quality. They have another advantage that's somewhat less talked about—it's so much easier to iron two halves than one whole!

But this observer, for one, believes that separates are now overworked. You see many girls never wearing anything else. This may be fine if it's absolutely the best style for them. But many times these girls look just as pretty in a one-piece dress. Since the one-piece look has a dignity for many occasions that the halved look doesn't have, it's too bad these girls fail to exploit it.

Separates are so generally accepted that you see many an older woman wearing them who simply can't, when judged by beauty standards. The older woman who can't wear them to the advantage of her good looks, and yet who often does, is the short, overweight, thick-waisted woman. One needn't be matchstick-thin to wear separates but one must have a well-defined waistline in proportion to the rest of the body. Separates call attention to the waistline.

If you're a type who can wear separates, make sure they're always neat. It's all too easy to let the top slip out. And many a rear view has been spoiled by a gaping placket and a slide fastener working itself open.

## TODAY'S RECIPE

## Ripe Tomato Marmalade

Ten medium tomatoes (2½ pounds), 2 lemons, 4½ cups sugar.

Blanch, peel and cut the tomatoes into small pieces. Slice the lemons very thinly, then cut the slices into quarters. Place the tomatoes and lemons in a saucepan. Cover tightly and cook gently for 45 minutes, stirring occasionally to prevent sticking. Remove cover, increase heat and cook until somewhat thickened, about 15 minutes, stirring more frequently. Add sugar, bring to boiling and boil, uncovered, for two to five minutes or until a thermometer indicates 220 degrees F. Pour into hot sterilized jars, leaving at least ¼ inch headspace. Allow to cool slightly, then pour a thin layer of melted paraffin over the marmalade, rotating the jar so that the wax will cling to the jar to form a close seal. When the paraffin has hardened, add a second layer and again rotate the jar. Cover and store in a cool, dry place. Yield: about five cups.

## AS WE LIVE

Newcomers Find It  
Hard to Make Friends

By ELIZABETH B. HURLOCK, PhD

Children as a rule make friends easily, but with passing years it becomes harder, as this woman is discovering. She writes:

Hurlock

(Q.) "My problem, I imagine, is a fairly common one. We moved here about a year ago and for the first time in our lives are finding it very difficult to make friends. My husband and I are in our early 30's and have been married for 10 years. We have two daughters, both of school age. We have been attending a church here, but people who are well established here, while awfully nice to us, seem to be so taken up with their own friends and activities that we can't seem to break the ice. I thought you might know of others who are new here and are finding it hard to establish themselves."

(A.) In every community there are newcomers who, like you, find it hard to break the ice and establish themselves as a part of their new community. The trouble is not with the community or with the people themselves. Their ages are at the root of the problem.

I am sure that your daughters did not find it hard to establish themselves in school. But when people are married and have homes and families, as most people in their early 30's do, their lives are filled with duties, responsibilities and a few old friends.

That is why you are finding it hard to break the ice. If you were younger or even middle-aged, things would be easier. However, if you are patient and make a real effort, you can make friends.

Here are some of the ways to do this:

1. Join some of the church, community and school organizations. Take part in their activities and get to know the people there.
2. Have your daughters invite classmates to your home and get to know their parents.
3. Ask your husband to invite some of the men he works with and their families to come to your home to meet you.

Elizabeth Hurlock is a consulting psychologist. Write her in care of this newspaper for free advice.

## OF PERSONAL INTEREST

### Team Members Fete Maureen Smith

Miss Maureen Smith was honored Wednesday evening, when members of the Victoria Girls' Drill Team gave a shower at the home of Mrs. Myrt Okell, 3063 Larkdowne Road. A novelty corsage of vegetables was presented to the bride-elect and "gifts," wrapped in newspaper, were presented in a barrel. However, a gardenia surrounded by rosebuds, en corsage, and an attractively-decorated wishing well containing gifts were finally brought in, much to the relief of Miss Smith. The mother of the guest of honor, Mrs. A. Smith, and mother of the groom-elect, Mrs. S. Grant, were presented with corsages of gardenias.

Guests were Mrs. J. Okell, Mrs. A. Burns, Mrs. B. Hickman, Mrs. J. Wright, Mrs. F. Goegan, Mrs. T. Jones, Mrs. T. Gardner, Mrs. R. Fairservice, and Misses Donna Brown, Doreen Renton, Joan Rodger, Gwen Mason, Olga Leschuck, Val Speed, Marilyn Wilson, Elsie Jernslet, Val McAllister, Betty Outtrim, Gloria Murray, Betty Collis, Lorna Forsyth, Thelma Brewer, Audrey McCormick, Florence Tickle, Dot Jones, Muriel Jennings, Tess Stewart, Nora Coleman, Amy Koller, Marg Creasey, Marilyn King, Sheila Warren, Jean Spedding and Juanita Campbell.

### Celebrate 50th Wedding Anniversary

A widely-known Victoria couple celebrated their 50th wedding anniversary Thursday with a quiet gathering of family and friends at their Craigflower Road home. They are Mr. and Mrs. Charles Banfield, who were married August 27, 1903, at St. Saviour's Church, Victoria West. Rev. W. D. Barber was the officiating clergyman.

Mr. Banfield is a native son and has lived here all his life. His wife, the former Effie M. Harper, was born in Fredericton, N.B., and came to Victoria when she was about 10. The couple have one daughter, Muriel, Mrs. Howard D. Reid, who is visiting here with her husband and son, Blair, from Langley Prairie. Their son, Clyde, is married and lives in Victoria with his wife and three children, Michael, Peter, and daughter, Laurie.

Members of the wedding party present were the best man, Mr. Ralph Banfield, brother of the groom of 50 years ago, and the matron of honor, Miss Melissa M. Harper, sister of the bride. Many other relatives and friends of both Mr. and Mrs. Banfield attended and hundreds of cards and floral tributes were received.

### Honor Graduate Nurses

Members of the September graduating class of Royal Jubilee Hospital who total 43 were entertained by the class of January, 1954, recently at an evening party in the pink room of the Nurses' Home. A feature of the refreshment table was a large cake especially decorated for the occasion. Miss Edith Moir, who is among the new graduates, entertained the class recently at the home of her parents, Mr. and Mrs. P. A. Moir, Beach Drive. Another class member, Miss June Walker, was hostess at a musical evening at the home of her mother, Mrs. F. E. Walker, Oliver Street. The girls will receive their pins today from Miss Lucie Woodrow, director of nursing.

### Shower for Miss Scott

Miss Irene Scott, who is in the city from Ottawa, visiting at the home of her parents, Mr. and Mrs. Thomas Scott, Quadra Street, was guest of honor Wednesday when Mrs. Leslie Clarke and Mrs. Frank Taaffe entertained at a bridal shower at the home of Mrs. Taaffe, Cedar Hill Road. Miss Scott's marriage to Mr. F. C. Thomas Dandenoe will take place at Port Credit, Ont., on Sept. 26. On arrival, a corsage of pink carnations was pinned on the bride-elect, and her mother received white carnations. A bride's book, was compiled by guests and Mrs. Denny McLean, Nanaimo, presented Miss Scott with miscellaneous gifts in a decorated basket topped with a miniature airplane. Good wishes and a shower gift were also received from Mrs. Merle Brown, Ottawa. Refreshments were served by the hostesses. Guests were Mrs. Thomas Scott, Mrs. T. Scott Jr., Mrs. James Doran, Mrs. G. T. Wood, Mrs. J. Bull, Mrs. Ada Bell, Mrs. K. Rix, Misses Joyce Bull and Margaret Ballard.

### Returning to Japan

His Excellency R. W. Mayhew, Canadian Ambassador in Japan, and Mrs. Mayhew will leave Victoria Saturday for Vancouver from where they will depart by CPA in the late afternoon for Tokyo, after a summer vacation spent here. Mrs. Mayhew came from Japan the first of July and Mr. Mayhew joined her here in August. During their stay at the family home on Beach Drive and at their summer home at Shavnan Lake, their son-in-law and daughter, Mr. and Mrs. A. J. Lawason, and their five children have been visiting them from Oakville, Ont. The Lawasons left by plane for their Ontario home last Monday.

Mrs. O. M. Brown who has been visiting in Vancouver and Seattle during the month of August, has now returned to her home on Lansdowne Road.

Mr. and Mrs. Reg Garratt and Miss Freda Cherrington of Salem, Ore., are leaving for the United States again today after being guests of Mr. and Mrs. William Blair, Hillside Avenue, for the past few days.

### A Wedding Announcement

Mr. H. Latham, Vancouver, B.C., and Mrs. B. Latham, 418 Craigflower Road, Victoria, announce the engagement of their youngest daughter, Audrey Margaret, to Kenneth W. Higgs, youngest son of Mr. and Mrs. G. H. Higgs, 2483 Hazel Street, Victoria. The wedding will take place on Sept. 26, at St. Barnabas Church, with Rev. E. G. Munn officiating. The bride-elect's sister, Mrs. L. Luney, will be matron of honor, and the groom-elect's sister, Miss L. Higgs, the bridesmaid. Don Higgs, brother of the groom-elect, will be best man, and Ray Ramsay and George Savory, the ushers. (Chevrone Photo.)

### Veronica Jackson, L. A. Jones Wed in Double-Ring Ceremony

A double-ring ceremony in St. Andrew's Cathedral recently united Veronica Cecilia Jackson, RN, daughter of Mr. and Mrs. R. Jackson, in marriage with Leslie Arthur Jones, son of Mr. and Mrs. L. E. Jones, 3850 Rowland Avenue. Father A. MacDonald performed the ceremony and traditional wedding music was played by organist Miss M. Mackay. Fred Spakowski sang "Panis Angelicus" and "Ave Maria" during signing of the register. The church was decorated with pink and white gladioli arrangements.

A full-length gown of heavy brocade, satin fashioned with bouffant skirt, fitted bodice, sweetheart neckline and rolled collar was worn by the attractive bride. Her three-quarter length veil of illusion net bordered with lace was held by a pearl-encrusted tiara and she carried a cascade bouquet of red roses and white carnations. Her jewelry was a double-strand pearl choker-necklace with matching drop earrings.

Maid of honor, Mrs. David Burek, RN, wore a pale green gown of iridescent taffeta with matching net headdress and mitts. Bridesmaid, Miss Maurine Jackson, sister of the bride, and bridesmatron, Mrs. Paul de Moissac, RN, were gowned identically in yellow and pink, respectively. All attendants carried colonial bouquets of carnations in colors to correspond with their gowns. Brother of the groom, Wilfred Jones, was best man and ushers were Albert Jones, also a brother of the groom, and Ray Woodford.

Dr. F. M. Bryant proposed the toast to the bride at the reception, held in the Flamingo Room of the Crystal Garden. After the groom responded, he proposed a toast to his parents, who were celebrating their 28th wedding anniversary on the same date. The three-tier wedding cake, topped with silver vase of pink roses, was flanked by pink candles in silver holders and silver vases of pink and white carnations. The newlyweds stood beneath an archway decorated with pink and white streamers, gladioli and a wedding bell. C. Hallam was master of ceremonies and music was supplied by Bert Zala's orchestra.

Out-of-town guests were Mr. and Mrs. J. P. Jackson, Mr. and Mrs. Stan Crook and Frank Crook, Vancouver; Mr. and Mrs. Ted Parker, Qualicum Beach; and J. E. Jackson, Revelstoke.

Mrs. Jones chose a dress, maker suit of pale yellow shark skin, yellow hat and gloves, taupe suede bag and shoes and corsage of yellow rosebuds, for traveling on honeymoon motor trip Up-Island. The couple will live at 439 Cook Street.

### Globe-Trotting Harringtons Share Fascinating Career

Girdling the globe with words and pictures—that is the interesting profession of Richard and Lyn Harrington, a husband and wife team who have turned a hobby into a profitable career. They are just on the turn homeward from a cross country junket from Toronto to Vancouver Island that has provided them with 72 subjects for magazine and periodical articles.

Mr. Harrington is armed with a love of strange adventure and a Roliflex camera and Mrs. Harrington with a pair of observant blue eyes, a keen mind and a shrewd sense of literary market values.

Richard Harrington is a name well known in the publishing world for his photographic observations, for he has appeared in Life, on Reader's Digest cover, in Coronet and many others all over the world. He is the author of a fine comprehensive book on life among the Eskimos, called "The Face of the Arctic," a moving camera record with continuity taken from his journal.

#### HOW IT STARTED

Mrs. Harrington also has written a book (illustrated of course, by her husband). Its title is "Manitoba Roundabout" and it is one of a travelogue series on the provinces got out by Ryerson Press.

Asked how it all started, the Harringtons will tell you: "When we decided to write up our honeymoon!"

That was 11 years ago. He was an X-ray technician in Toronto then, his photography a keen hobby, and she was a librarian. During their honeymoon, spent roving over the Ontario countryside, he kept a journal and a record of their experiences on film.

After the war, husband and wife decided to embark on their present career. Mr. Harrington tells you:

"Like everyone else we aimed high—had ideas about National Geographic taking our story. Actually we landed in a small Sunday school magazine, but the little cheque looked pretty good just the same!"

#### ARRANGES MATERIALS

Mrs. Harrington explains her share of the partnership as the editorial and proof-reading tells. Actually she selects and arranges material from his journal in such a way that it makes a cohesive and smooth flowing story to accompany the pictures.

A new book, "Northern Exposures" is coming out soon, being published simultaneously in the United States and Canada. But of books, Mrs. Harrington says:

"They are just prestige. It is more profitable to write magazine articles!"

The husband-and-wife team has traveled all over Canada, their most recent experiences of course, have been on the Island, particularly at Forbiden Plateau. They have found many things of interest which apparently are missed by those living on the spot.

In March, 1952, Richard Harrington was in Timbuctoo. November of this year will see him

### Daphne Sehl Makes Home in Toronto

Now living in Toronto after a honeymoon in the New England States are Mr. and Mrs. Ramon Aris Peister, who were married recently in the Old Davenport Road United Church, Toronto. The bride is the former Daphne Marilyn Sehl, daughter of Mr. and Mrs. F. T. S. Sehl, 706 Lampson Street, and the groom is the son of Mrs. W. A. Stewart, Santa Ana, Calif., and the late Mr. Orville Peister. Rev. A. H. Ferry performed the ceremony.

The bride wore a gown of embroidered nylon over taffeta with bouffant, waltz-length skirt and tailored bodice. A nylon net headdress held her short veil and she carried a bouquet of pink roses.

Matron of honor was Mrs. R. C. Webber, Toronto, formerly Barbara Campbell of Victoria. Little Dianne Cotey, niece of the groom was flower girl. Glenn Peister, brother of the groom, was best man and ushers were R. C. Cudmore and Edgar Fredricks.

### CLUB CALENDAR

Women's Auxiliary to Navy League, general meeting, home of Mrs. E. W. Harman, 1400 Monterey Avenue, Monday at 8... Florence Nightingale Chapter, IOOE, Monday at 2, home of Mrs. K. Mills, 1510 Fairfield Road.

### POTS AND PANS HOME DECOR IN MODERN LIVING

The latest in cooking pots and pans brings the cook out of the kitchen into the dining room. Many new housewares and appliances are designed for meal preparation right at the dining table, rather than in the kitchen. Kitchen utensils are moving out of the cupboard and hanging on the wall. Today they form a major part of the kitchen decorating scheme.

Pots and pans are now colored from vivid greens and yellows to pastel shades of coral, chateau and grey. Wrought iron is appearing more and more in holders for kitchen utensils.

To make wall-hanging easier, each pan comes complete with a plastic leaf wall bracket. There's also a casserole which cooks right at the table and serves from the same dish... no running back and forth for the cook.

### "Monthly Pains" Halted or amazingly relieved

In 3 out of 4 cases in doctors' tests are you putting up—unnecessarily—with the functionally-caused cramps, pains and weak "so good" feelings of menstruation? In doctors' tests, Lydia Pinkham's Compound and Tablets brought complete or striking relief from such distress... in 3 out of 4 cases!

Try modern-acting Lydia E. Pinkham's Vegetable Compound or new, improved Tablets with added iron. See if it doesn't relieve those pains and jittery... help you feel better both before and during your period!

Now...try popular new Tablets! Women by the thousands are changing to new Pinkham Tablets. Give grand relief—minor to cury and take, too! (Also splendid for functional distress of hot flashes of "change of life") Get a bottle today.

Pinkham's helps to "quiet" uterine contractions that often cause menstrual pain!

**ASTROLOGICAL FORECAST**

SATURDAY, AUGUST 29, 1953

**ARIES (March 21 to April 19)**—Completing duties connected with real estate, income and outlay, all routines of daily living should make this a day of accomplishment. Attend to throat conditions.

**TAURUS (April 20 to May 20)**—Add to your looks and general grooming by getting out early to beautician for treatments. Invite person of importance to place of entertainment to help you advance more quickly.

**GEMINI (May 21 to June 21)**—You have just made some big decisions. This is your time to get down to brass tacks and delve into the irksome details that only you can do properly and completely.

**CANCER (June 22 to July 21)**—Much intelligent and helpful activity in connection with your goals can be secured by allowing your good friends in on your projects. Then you make real progress.

**LEO (July 22 to Aug. 21)**—Forget those big-time, generous undertakings you've been considering. This is your day to get the approval of others essential to your success in exact performance of your public duties.

**VIRGO (Aug. 22 to Sept. 22)**—Much necessary and enlightening information is available if you will make the full effort of research into newspapers and other sources. Experienced people can help, too!

**IF YOUR CHILD IS BORN SATURDAY...**  
Saturday's child is one of those very fortunate youngsters who will have exceptionally good health and who will always have a knack of getting along with all people, those of a very different background particularly. Therefore it would be wise to travel as much as possible. Establish your child's confidence by being very frank in discussions. Otherwise, frustrations could occur. Give your offspring a chance to "strut" and a rich nature develops.  
(Copyright 1953, General Features Corp.)

**SUNDAY, AUGUST 30, 1953**

**LIBRA (September 23 to October 22)**—Unfortunate situation with overly positive companion is avoided merely by keeping out of his way. Stick to higher-ups whose favor you need for personal prestige and chosen ends.

**SCORPIO (October 23 to November 21)**—Disagreement with partner or executive over who is to have power or control in long time enterprise is unnecessary. Discuss with newcomer who has more experience for best results.

**SAGITTARIUS (November 22 to December 21)**—Stay close to your duties for otherwise powerful appeal in unknown, inexperienced directions can bring you losses. Study new budget. Enjoy romantic pleasures.

**CAPRICORN (December 22 to January 19)**—Daytime finds all drudgery behind you as you attend to religious needs. Home arrangements are on a satisfactory basis. P.M. is fine for agreeable entertainment.

**PISCES (February 20 to March 20)**—Combine your big ideas with some down-to-earth qualities which can be enhanced by discussions with close ties. P.M. charm everyone at home and be happy.

**IF YOUR CHILD IS BORN SUNDAY...**  
Sunday's child is one of those dynamic youngsters who will be so full of energy and progressive ideas, as well as desire for good times, that it will be difficult to teach him to let conditions work themselves out after the initial action has begun. The example of planting the seed and then giving time to let it grow undisturbed by daily fussing is one your progeny might understand. All this force channelled in the right direction can be of much assistance to one so talented.

#### Population Keeps Increasing, But U.S. Is Still Well Off

In 1940 the population of the United States was close to 132,000,000; in 1950 it was just over 151,000,000, and in July, 1952, was estimated at almost 157,000,000. For the United States this represents an increase of 1.47 persons per hundred each year from 1940 to 1950, and 1.71 persons per year from 1950 to 1952. Similar increases, some of them even considerably larger, are occurring in other countries as well.

What does this great increase in the number of people living in the world mean to health? No one knows exactly, although it is almost certain that in some parts of the world there are already more mouths to feed than there is food to put in them for adequate nourishment. It is interesting to note that about 150 years ago an Englishman by the name of Malthus predicted that with the increase in population then occurring it would not be long until the number of people on the face of the globe had been so increased that the products of the land would not feed them.

During that short space of time the population of the world has been multiplied more than four times, and it is probable that no more people are starving today than did so in Malthus' time. The reason for this is that the earth has been made more productive.

New areas have been explored and opened up to cultivation, and the yield of food substances per acre of land has been enormously increased by a multitude of methods, including fertilization, irrigation, new tools, better seeds and the like. Malthus has not been alone in his pessimistic predictions. Twenty-odd years ago when the United States was in the great depression, the birth rate fell off and stayed that way for several years. The experts then started to figure that the United States was going to reach its peak population in a few years, and that before long not enough babies would be born to replace the old folks who passed away. This was the exact reverse of Malthus' worry.

#### PEOPLE POOLED EXPERTS

When the Second World War came the birth rate started to go up by leaps and bounds. All

figures on the size of the United States population, and when the peak would be reached, had to be completely revised. Perhaps the experts weren't wrong, but the people didn't behave as the experts thought they were going to.

Where are we today? If the population grows to the point where the earth can feed no more, there will be mass starvation. Just when this point would be reached is difficult to predict. It appears that in some parts of the world starvation is already chronic, but others like ourselves are still comparatively well off.

The city of Lancaster in England was an important settlement even before the time of the Romans.

## Two FOR THE Show

By PHIL LEE

AA—Dinner; A—Don't Miss; BB—Worthwhile; B—For a Rainy Afternoon; C—To Put in Time.

(B) "SOUTH SEA WOMAN" (Royal)—One of the great fighting services in the world is the proud United States Marines. One of the fine actors of today is Mr. Burt Lancaster, amiable, swabbing cavalier of "The Crimson Pirate" and co-star of Academy Award winning Shirley Shirley Booth in "Come Back Little Sheba."

"Sad to relate, both are made to look ridiculous in "South Sea Woman."

First of all—and this may be only an obsolete, old-fashioned idea of your reviewer—surely the men who sing so proudly of the halls of Montezuma and the shores of Tripoli, the men who wrought such heroes at Two and Guadal have garnered for themselves such dignity that it borders upon the sacrilege to have even the moving picture studios of their own country reduce them to the ridiculous.

And this is exactly what "South Sea Woman" does. By dint of having a single marine sink a Japanese destroyer single-handed, by having one of them mow down what looks to be a full division of the enemy as well as tackle an acre or two of Japanese small craft, it takes the humor out of the purported comedy and makes it only farce. Too good an actor to be flummoxed by such phony sheenings, Mr. Lancaster looks throughout, as though he were dying to get back to Shirley Booth and his old stand of alcoholism.

After "South Sea Woman" a drink or three would be permissible.

And as for Virginia Mayo. She fitted into her role as the devilish American chorus girl picked up by the marines as though tailor-made for the role. In conclusion, if the U.S. services conduct a court-martial as depicted in the film then maybe we should all go back to the press-gang system. For how could anything ever matter again?

## Many Protest Fuel Frauds But Few Act

City police are experiencing difficulty bringing to court fuel dealers against whom complaints have been laid.

Deputy Chief Harry Mercer reported to police commission Thursday that since the beginning of the year 12 complaints had been received about fuel dealers but that only one case had been brought to court.

He explained that in the other cases the dealers had made satisfactory out-of-court settlements, or that complainants had been unwilling to appear in court, or that there was insufficient evidence for successful prosecution.

Mayor Claude Harrison, police commission chairman, who was largely responsible for the special by-law providing regulations for fuel dealers, was opposed to having settlements arranged after a complaint had been laid.

"The offenders should be brought in and penalized," he said.

The mayor said he was having many complaints about dealers referred directly to him at City Hall.

Deputy Chief Mercer said many people who complained about wood they received were unable to help police since often they did not know the name of the dealer from whom they bought the wood, and had neglected to get receipts for their money.

## 3,000 Alcan Workers Vote Strike Action

ARVIDA, Que. (CP)—More than 3,000 employees of the Aluminum Company of Canada, members of the Canadian Catholic Confederation of Labor, Thursday night voted to strike to back up wage demands.

A mass meeting of employees authorized union officials to take all necessary steps to prepare for a strike beginning at midnight Monday after the company and union failed to reach an agreement in their dispute.

BELLEVEILLE, Ont. (CP)—One thousand bushels of oats were threshed in 3½ hours on Arnold Mitchell's farm near here, with two men pitching the oats from a wagon to the threshing machine.

# Civic Committee Approves Bus Service Cut Here

A cut of eight per cent in bus mileage routes to enable the B.C. Electric Co. Ltd. to reduce its operating deficit by about \$80,000 was approved unanimously at a Greater Victoria Transportation Committee meeting in City Hall Thursday.

Members agreed to recommend the reduction to councils of Victoria, Esquimalt, Saanich and Oak Bay, following presentation of the B.C. Electric's case by E. W. Arnott, vice-president in charge of Vancouver Island operations.

"Eighty per cent of the curtailment will be after six at night with the remaining 20 per cent after the morning and evening rush," Mr. Arnott said.

"We are cutting nothing out of the rush hours—it is only where the service is not being used."

H. R. Halls, transportation manager, said cuts would mean no increase in crowding as they will be effected only where the "buses are not being used."

## LINES ELIMINATED

The company asked chiefly for reductions in service frequency with one or two lines eliminated entirely during part of the evening. Other lines will provide service.

Included in the plan are changes to eight Greater Victoria services on weekdays, two on Saturdays and three on Sundays.

Eliminated from 6 p.m. onwards will be the Richardson service, which at present runs to 11:30 p.m. The Mayfair service, which augments the Mount Tolmie run, will operate from 4 p.m. to 6 p.m., instead of from 2 p.m.

Colville and Munro lines will remain the same, but the Esquimalt run will go on a 30-minute service instead of 20.

Reduction of service frequency during slack hours is proposed for Gonzales-Shoal Bay-Oak Bay, Hillside-South Fairfield, Haultain-Beacon Hill, Cook-Cedar Hill, Maplewood, Uplands-Victoria West.

The company lost \$332,340 on its transit service in 1952 and

\$164,348 for the first six months of this year, Mr. Arnott said. He anticipates a greater loss for the period up to Dec. 31.

The mileage reduction would effect a saving of close to \$80,000 based on the 1952 figures, he said, but added that it would be offset largely by the \$67,000 added to the company's wage bill this year.

"We are recouping the 7½% wage increase and little else," Mr. Arnott said. "The picture is still a black one."

He said the company would have had to earn a profit of \$560,000 on the 1952 total revenue of \$1,615,000, with no increase in expenses in order to earn the "fair return" permitted by the PUC.

## PRIVATE CARS COMPETE

From 1948 to 1952 there was a 43.9 per cent increase in number of private passenger motor vehicle registrations in Greater Victoria area, he said.

"I make no bones about it—that is our real competition," commented Mr. Arnott.

Councillor W. H. Dallaway of Esquimalt felt his municipality "could not object" to suggested reductions on the Esquimalt run.

"That bus to Admirals Road is often practically empty," he said.

Ald. Don Smith of Victoria said it was either a reduction in mileage, a rate increase or an increase in power and light rates to offset the transit operation loss.

"The requests are very fair," he said. "They are not at all unreasonable. To avoid any request for a rate increase I would favor the proposals."

Mr. Arnott said if councils and the PUC approve the changes, the company would like to effect them October 1.

## BUS BILL CARRIED

Ald. Smith asked the company how it could carry on in

the face of constant operating losses on transit which would have finished "any ordinary private business."

"We certainly would have been but the Public Utilities Commission allows pooling of services," said Mr. Arnott. "Light and power carries transportation."

"If transportation stood on its own feet we'd have folded up long ago."

Mr. Arnott said the company's revenue per mile in 1952 was 42.1 cents while it cost 51.1 cents to operate. Some routes he said have carried 1½ persons per mile, which means 13 to 14 cents per mile for the company while operating the bus for the same mile costs 51 cents.

If reductions are approved by municipal councils and the PUC, the company will save

## Autoist Fined 50

Fines totaling \$50 were imposed in Saanich police court Thursday afternoon upon David Pridge, 1435 Stanley, who pleaded guilty to driving without being a license holder and to having wrong plates on his car. He was fined \$25 on each count.

American cotton is successfully grown at Kassala in the Anglo-Egyptian Sudan.

Labor costs, he said were a chief factor and presented a list of basic wage rates for transit workers in cities across Canada. "Victoria and Vancouver with \$1.58½ an hour were the highest, he said.

**HAULTAIN - BEACON HILL**  
20-min. service all day.

## Prosecutor Aids Accused Acting as Own Lawyer

Youthful Hugh Myles Roberts, 422 Simcoe Street, went to Saanich court Thursday armed with a copy of the Motor Vehicle Act and a list of written questions for Crown witnesses.

Roberts, charged with careless driving, pleaded innocent to the charge laid against him under section 57 of the Motor Vehicle Act, but said he was prepared to plead guilty to violating section 20.

Section 20, he noted, required drivers to pull over to the extreme right hand side of the road when approaching an intersection.

He admitted he entered the intersection of Maddock Avenue and Earl Grey Street on Aug. 15 more or less in the middle of the road.

He denied responsibility for the collision which occurred in the intersection between his car and one driven by Mrs. Marguerite Bugslag, 1026 Dunsmuir.

The Bugslag car, hit on the side, was turned over and Mrs. Bugslag's left arm pinned underneath the vehicle, which sustained about \$900 damage.

At one point during proceedings, accused's questions brought from Magistrate Thomas a threat to deny the accused right to continue his cross-examination.

Prosecutor Lloyd G. McKenzie suggested that since Roberts was acting without counsel the court should allow a wide latitude in his questioning.

Roberts was allowed to continue. His defense did not convince the magistrate, however. He was fined \$50.

## OOPS! WRONG PLANE

CLINTON, Okla. (AP)—Donald Gowdy of Borger, Tex., driving a speedy foreign car, told police who stopped him for travelling at 90 miles an hour that he was racing a small plane, trying to find out how fast it was going.

The plane turned out to be the highway patrol's Beechcraft, with trooper Art Hamilton dutifully clocking Gowdy's speed from the air.

## Municipalities To Act With City On Fireworks Ban

Municipal representatives from Saanich, Oak Bay and Esquimalt agreed Thursday afternoon to co-operate with the city to restrict sale of firecrackers to three days a year.

By-laws will be introduced in each area specifying that firecrackers be sold only on Halloween (Oct. 31) and the two immediate days before.

The law is designed to curb damage caused by firecrackers and vandalism in the period leading up to Halloween. It is felt that when stores offer firecrackers weeks before the event, youths are tempted to begin their mischief-making early, causing them to tire of harmless tricks before Halloween arrives, and leading them to stage more serious and dangerous acts on the actual day.

## SEES CHIANG

TAIPEI, Formosa (AP)—Gen. James A. Van Fleet, former Eighth Army commander in Korea, conferred today with President Chiang Kai-shek of Nationalist China. Van Fleet, member of an American aid group for Korea, arrived Thursday night from Tokyo at Chiang's invitation.

at the C. Summerville-Allen's, 3691 Cedar Hill Road

by THE VICTORIA THEATRE GUILD

Saturday, August 28, 2.30 to 5.30

Ten 50c Cook-Cedar Hill Bus

## ALBERTA POLIO CLOSURE EXTENDED

EDMONTON (CP)—The Alberta health department Thursday banned children 16 and under from the province's Sunday schools, universities and business colleges.

The move followed Wednesday's order-in-council delaying school opening until Sept. 14.

Meanwhile the health department reported a 24-hour increase of 16 polio cases throughout the province, bringing the total to 317 cases and 14 confirmed deaths.

## License Lifted, \$30 Fine Levied

Gerald S. Adamus, 1117 Johnson Street, was fined \$30 and had his driver's license suspended for two months when he came before Magistrate A. I. Thomas in Saanich court Thursday. He pleaded guilty and was fined \$15 for going 70 miles an hour in a 50-mile zone, and was found guilty and fined a like amount for not coming to an immediate stop at the sound of a police siren.

The 1953 waterfowl survey showed 34 per cent more waterfowl remained in Canada last winter than the winter before.

## Police Ignored On Placement of Traffic Lights

Victoria police commission was taken aback Thursday when it was informed the police traffic division was not being consulted with regard to placement of traffic lights.

Commissioner William Hamilton questioned the wisdom of the newest light at Douglas and Broughton. Deputy Chief Harry Mercer replied that to his knowledge the department had not been consulted as to the advisability of a light at that or any other point.

Commissioner Hamilton suggested opinion of the police be given on the location of all traffic lights.

He said he was opposed to the idea of having two lights at the Pandora and Cook intersection. He argued that since the south side of Pandora was a one-way street, a stop sign was all that was needed on that side.

About 150,000 persons annually visit the Martyrs' Shrine at Fort Ste. Marie, near Midland, Ont.

## How to live on what you make

Chances are your income is greater today than ever before. Yet, if you're like millions of others, never have you fretted so much about making your income match your outgo.

In September Reader's Digest, Sylvia Porter, noted financial authority, offers six rules for personal solvency whether you're earning \$2500 or \$25,000.

If you're looking for financial peace of mind, don't miss "How to live on what you make" in September Reader's Digest. It's just one of 45 articles of lasting interest, condensed from leading magazines, current books.

## Science Kills Hail Threat By Turning Stones to Snow

WINNIPEG (CP)—The Manitoba director of an American weather modification company says the hail problem is "definitely licked."

Lloyd McSorley of the Weather Resources Corporation told a Winnipeg Kiwanis Club results of a 5½-year \$2,000,000 research

project at Denver have proved hail damage can be controlled. Experiments undertaken in one of the worst hail areas of Colorado had succeeded in reducing hail to "mush snow." He said two major American insurance companies were interested in the project.

## EATON'S Great August Fur Sale

Just two days left to EATON'S Great August Fur Sale . . . just two days left to choose the coat of your dreams at special low prices! Plan to come to EATON'S tomorrow for these outstanding buys in luxury . . . and remember just two days left to buy with

**NO DOWN PAYMENT**

## Three Luxurious Furs — Each at This Low Price

### Mouton Lamb

(Dyed, Processed, Shearfed Lamb)

Combines high-fashion with practicality . . . at a low August Sale price. Thickly furred pelts that wear season after season. Fashioned with roll and wing collars, deeply cuffed sleeves. Full length and trotters. Sizes 12 to 20.

### Electric Seal

(Dyed Rabbit)

Beautiful glossy black Electric Seal . . . another outstanding feature of this month-long sale. Soft, light in weight, flattering to wear for any occasion, with new 1953 detailing in full length and trotter styles. Sizes 12 to 20.

### Japanese Coney

(Dyed Rabbit) Illustrated at Right

Shown in the new subtle silhouette that flatters any size and age group, enhances each coat with fashion accents of cuffed sleeves and shawl or notched collars. Full length and trotters. Sizes 12 to 20.

### Northern Centre Back Muskrat (Dyed)

We think Centre Back Muskrat is tops in style and value because it is the more densely furred of Muskrat pelts, because it is in a soft silhouette with deeper armholes, new collars, cuffs and sleeves. We have both Alaska or Moonglow Muskrat in full-length and trotter coats. Sizes 10 to 20 in the group.

August Fur Sale Price, each

**378<sup>00</sup>**

### Natural Gray Chinese Kidskin

A young lightweight fur in natural steel grey tones, flattering to almost everyone. Slim and bulkless and cleverly styled to bring you all the new fashion trends. Full length and trotters. Sizes 12 to 20.

August Fur Sale Price, each

**198<sup>00</sup>**

### Northern Muskrat Back (Dyed)

Soft, silky full-length Muskrat coats with the supple look of '53 fashions. The look that relinquishes bulkiness, but not luxury. The densely furred Northern pelts are deftly designed in new fur fashions. Sizes 12 to 20. August Fur Sale Price, each

**258<sup>00</sup>**

### Muskrat Flank (Dyed) Coats

Value! Quality! Luxury! Savings! All are yours in this outstanding sale of Muskrat Flank coats. North American Flank pelts in full-length and trotter styles, with the newest trends in collar and cuff treatments. Sizes 12 to 20. August Fur Sale Price, each

**248<sup>00</sup>**

### Full Skin Persian Lamb (Dyed)

Prime pelts of medium curl . . . fashioned into lovely lightweight full-length coats, exciting and dramatic, with soft natural shoulders, easy flowing lines, turn-back collars, wing or shawl collars. Sizes 12 to 20. August Fur Sale Price, each

## 62 YEARS' WAITING

# Renfrew Road Claimed Asset To All Island

Coast Settlers Still Optimistic;  
Hold Hope Still for Ocean Port

(Times Reporter Humphrey Davy and a Queen's Scout companion, West Humphrey, have just completed a nine-day exploration tour of the route of the proposed West Coast road, sponsored by the Victoria Times. The pair set out with a view to ascertaining the feasibility of the road project, to familiarize themselves with the contours and scenery of what is almost an unknown country and to report. This is the fourth of a series of stories of their adventures.)

By HUMPHREY DAVY, Times Staff Reporter

The coastal territory between Jordan River and San Juan Point which West Humphrey and I traveled through on our hike up the West Coast is, not exceptional in scenery. We found it differed little from the coast near Victoria and cannot boast of any superior beaches.

PAGE 18

## Mayor Lauds West Coast Road Series

Development Held  
Vital to Island

Articles by Humphrey Davy, Victoria Daily Times staff reporter, on his recent nine-day exploration tour on foot along the route of the proposed West Coast road, should be read by "every member of the public," Mayor Claude Harrison said today.

"It is an excellent series and I highly commend the articles to anyone interested in the development of Vancouver Island," the mayor said.

Long an advocate of the West Coast road, he said the development of the area was "vital" to Vancouver Island.

"I have been over that area time and time again," said the mayor, who is a well-known hiker and woodsman.

"I have reports which prove what Mr. Davy and his companion, West Humphrey, found, to the effect that a road and bridges in the area are feasible."

## Townsend in London, Margaret in Scotland

LONDON (CP)—Group Captain Peter Townsend flew to England today for his first visit since July when he was sent to Brussels as British air attaché.

Princess Margaret, with whom Townsend's name has been linked romantically, is at Balmoral, Scotland, with other members of the Royal Family.

Townsend is here for air ministry talks with air attaches of other British embassies.

## Republicans Elated Over Budget Report

WASHINGTON (UP)—Administration officials were elated today by an up-to-date budget report showing that the Republican economy drive has slashed \$6,100,000,000 from the prospective federal deficit for fiscal 1954.

In a new review of income and spending, the budget bureau estimated the government will go \$3,900,000,000 in the red for the year ending next June 30. That compares with a deficit of \$9,900,000,000 forecast by former President Truman before he left office last January.

It also represents a substantial improvement in the budget outlook since May, when President Eisenhower estimated the deficit at \$5,600,000,000.

The budget review estimated government spending for the year at \$72,100,000,000—\$6,500,000,000 below former President Truman's January estimate, and

\$2,000,000,000 below Mr. Eisenhower's May estimate.

Secretary of Treasury George M. Humphrey hailed the revised estimates as "very good news." He said the new figures mean "we have turned the corner" in the struggle for a balanced budget, but he declined to speculate on the possibility of a balanced budget next year "until we get the facts."

Part of the "good news" is that it will not be necessary to call Congress into special session this fall to boost the debt limit. The new figures estimate that the national debt at the end of this fiscal year will be \$271,100,000,000—\$3,900,000,000 below the present limit and some \$2,700,000,000 less than President Eisenhower had estimated in his urgent, but futile last-minute appeal to Congress to boost the debt ceiling before it adjourned early this month.

## RAMMER CAUGHT?

HALIFAX (CP)—Weary after a four-hour battle, two fishermen from nearby Eastern Passage came home Thursday night towing a half-ton, 12-foot ocean monster that was still alive and flipping.

Convention Issues Tip Coupons

It's only a piece of paper, but it's as good as money in the bank, life insurance salesman Sol Minzer, Dallas, might be explaining to waitress Rhoda Erickson of the Empress Hotel Coffee Shop. Minzer is attending the conven-

tion of California-Western States Life Insurance Company, which has issued "tip coupons" to all men registered, to make sure hotel staff is not neglected when tips are called for. (Times Photo by Strickland.)

## TIPPING MADE PAINLESS

# Conventioneers Get Tokens for Tariffs

Tipping will be no problem for 300 U.S. insurance men when they hold their annual convention in Empress Hotel this week end.

The company sponsoring the convention, California-Western States Life Insurance Company, has arranged to guarantee distribution of more than \$900 in tips to the hotel staff.

"Proper and adequate tipping is an important element in hotel service," says a convention booklet prepared by the company. "Hotel employees expect tips."

To make sure the employees get them from the conventioneers, California-Western States has printed "tip coupons" in booklets of \$3.30, and a booklet has been issued to each man registered. The coupons are clearly marked as to amounts and recipients; for instance, a 20-cent coupon is designated "Waiter."

Cash to cover the coupons has been deposited with the hotel cashier, where employees can exchange their vouchers for coins of the realm.

Visitors are members of the company's El Capitan club; for high-ranking insurance agents.

No Sympathy Walkout by Coast Seamen

VANCOUVER (BUP)—Norman Cunningham, West Coast representative of the AFL Seafarers' International Union, said today that West Coast seamen were 100 per cent behind eastern seamen in their demands for higher wages and shorter working hours, but there would be no sympathy strike here.

Cunningham was commenting on the threatened strike of some 8,000 seamen who will take an SIU strike vote Monday to back demands for a 40-hour week and \$50 monthly pay boost.

"We definitely will not go out on a sympathy strike," said Cunningham.

MONTREAL (BUP)—Operators of 200 freighters plying the Great Lakes were reported "unconcerned" today at a strike threat posed by the AFL Seafarers' International Union which could tie up 99 per cent of Canada's inland shipping.

The shipowners were said to be ready to "sit out" any walkout by the 8,000 SIU seamen who will take a strike vote Monday in eight key cities coast to coast. The vote was ordered after the union unanimously rejected a conciliation board report which turned down its bid for an immediate 40-hour week.

"I LOVE YOU, I LOVE YOU"  
I LOVE YOU, I LOVE ...

FREEDOM VILLAGE, Korea (UP)—Three little words repeated over and over by a girl from Brooklyn disgusted the Chinese.

That is why prisoner of war Cpl. William C. Rhadigan, 22, of Richmond Hill, N.Y., received all the letters written by his sweetheart, Theresa MacDonald.

"All she ever said was 'I Love You,'" Rhadigan said. "But that was enough for me."

He said the Chinese considered the letters so repetitious that they let him have all of them.

## Austria to Gain Control of Own Communications

VIENNA, Austria (UP)—The four occupation powers—the United States, Great Britain, France and Soviet Russia—agreed today to abolish their controls over Austrian communications.

"It is one of the most far-reaching decisions in recent years," an American informant said.

Under the agreement, effective next Tuesday, the Austrian government will be given control of internal and international postal, telegraph, telephone, radio and teletype communication.

## FINAL BULLETINS

### Possible Double Murder Under Probe

DAUPHIN, Man. (CP)—Royal Canadian Mounted Police are investigating the deaths of two Indians which may prove to be a double murder or murder and suicide at Shownan, Man.

A party of two constables and a coroner left Dauphin Thursday to drive to the remote town, 180 miles northwest of Winnipeg on the eastern shore of Lake Winnipegosis. The difficulty of access is slowing reports.

### Canada Should Lead West—Monty

TORONTO (CP)—Field Marshal Viscount Montgomery, deputy supreme commander of the Allied powers in Europe, said today Canada should lead the western world politically, in defense, the arts and in industry and not be influenced by the United States.

"Go right ahead, Canada, and lead the western world," he said in a speech prepared for the official opening of the 75th annual Canadian National Exhibition.

### PW Says All To Be Returned

PANMUNJOM (AP)—A returned U.S. prisoner said today the Communists told his camp they will return all captives, including those convicted of "germ warfare" or other "crimes" which carried sentences of "no repatriation."

Lieut. Roy Boyd, Winnetka, Ill., said the Chinese commander at his camp told prisoners a few days ago the Reds will return all prisoners, adding that this "includes criminals and men convicted of germ warfare."

### Gaspé Prospector Charged in Murder

PERCE, Que. (CP)—A stocky woodsman today was escorted by Quebec provincial police into a packed courtroom in this quiet town and formally charged with one of three American tourist murders in the Gaspé wilds last June.

The charge that Wilbert Coffin, 37-year-old bushman, prospector and jack-of-all-trades, murdered Richard Lindsey, 17, of Hollidaysburg, Pa., was read by Magistrate Joseph Duguay.

## Indian Troops Take Over PW Problems

PANMUNJOM, Korea (UP)—The first contingent of Indian troops moved into the Korean demilitarized zone today to take charge of war prisoners refusing to go home. They were from an Indian hospital unit.

Guards from India proper have not yet arrived. The Indians will guard the reluctant prisoners while interrogators on both sides attempt to persuade the captives to change their minds.

The United Nations is holding 14,000 Chinese and some 5,000 North Koreans who said they would prefer death to returning to a life under Communism.

Thus far the Communists have not given the UN the number of their captives who are resisting repatriation, but returning prisoners said there were Americans in their camps who swallowed the Red line and had refused to go home.

Less than 900 Americans scheduled for repatriation remained in Communist custody today as 144 GI's went through Freedom Gate.

The sun came out for the first time in five days and the exchange of 400 Communist-held prisoners for 2,400 captives of the Allies was accomplished quickly.

## OVERNIGHT ENTRIES

### VANCOUVER

FIRST RACE—Mile and 70 yards:  
9001 Secret Sorrow (Seattle) 113

# CANADIAN-U.S. GOLF STARS REACH FINAL

## Chetwynd Says U.S. Company Has Steel Plan

Island Ore, Power Would Be Utilized

By GORDON FORBES

An American company will start investigating the possibility of establishing a steel industry on Vancouver Island in the next 10 days, Trade and Industry Minister Ralph Chetwynd said today.

The minister declined to disclose the name of the firm.

He explained that if the plans materialize the company would, likely use the "Madras" process, an electrolytic method by which ore can be smelted in small quantities.

Mr. Chetwynd has been harping hopes for an investigation for many months. He first hinted at the possibility in his maiden speech in the Legislature this spring.

But the minister was then referring to a San Francisco group which has since lost interest in the venture because of the passing of two of its leading figures.

### NEW HOPE

The new firm's interest gives new hope to Mr. Chetwynd's spring announcement that iron ore smelting was a distinct possibility for the Island.

The smelter would use power from the John Hart power development.

Government sources are optimistic about the outcome of the investigation and feel this is not just another step in the long series of disappointments to which British Columbians have become accustomed in connection with proposed steel industries.

The Island's major ore deposits are at Quinsam Lake, (where ore is being shipped to Japan), Zeballos and Texada Island.

Meanwhile, nothing further has been heard about previously announced plans for establishment of an iron ore smelter on the mainland.

### Vancouver Stocks

Pacific Nickel regained some of Thursday's 20-cent decline on Vancouver stock exchange this afternoon, closing at 66, an 11-cent advance.

Sales recorded: 1,500 Canadian Atlantic 4.00, 300 Central Leduc 2.15, 1,400 Charter 1.10, 150 Pacific Pete 8.00, 1,300 United 71, 7,200 Yankee Princess 50, 4,500 York 25, 7,500 National Exploration 35, 4,400 Pacific Nickel 66, 750 Pioneer 1.80, 600 Western Tungsten 1.90, 200 McMillan & Bloedel 16.50, 45 B.C. Telephone \$35 1/2.

Convention Issues Tip Coupons

It's only a piece of paper, but it's as good as money in the bank, life insurance salesman Sol Minzer, Dallas, might be explaining to waitress Rhoda Erickson of the Empress Hotel Coffee Shop. Minzer is attending the conven-

tion of California-Western States Life Insurance Company, which has issued "tip coupons" to all men registered, to make sure hotel staff is not neglected when tips are called for. (Times Photo by Strickland.)

## Genest Hanged

MONTREAL (BUP)—Roland Genest, 27, died on the gallows early today for the murder of girl friend Marie Paule Langlais who, by his own admission, killed his wife so they could go out more often.

Miss Langlais, 23, was found beaten to death and stabbed in a lonely section of suburban Ile Bizard last Feb. 19. Genest said he hit her with a baseball bat and then "went berserk."

While awaiting trial for this slaying, Genest said Miss Langlais, at his request, had killed his wife, Rita, 22, in May of 1951, to "get her out of the way."

The wife was beaten to death with an iron bar and the body burned in a deliberately set apartment fire.

## Proposed BCE Bus Schedule Changes

See Page 22

Looks like them California badmen Nevada chance.  
M' Uncle Zeke sez wuz with less bus routes he's goin' t' have t' run twice as far now.  
Gotta feelin' them Pils better have a lot o' iron in them tonight.

## Doe-Cherry Battle For National Crown

MONTREAL (CP)—Don Doe of Granby, Que., and Don Cherry of Wichita Falls, Tex., won their semifinals in the Canadian Amateur golf tournament today by identical 3-and-2 scores.

Doe ousted Jimmy Wilson of Glasgow while Cherry took the measure of Wilson's Scottish Walker Cup teammate, Roy MacGregor.

### LED ALL THE WAY

Cherry, a well-known radio singer, led all the way from the second hole of his 36-hole match.

But Doe, after piling up a three-hole margin on the first four holes, saw his lead pared to a one-hole margin at the half-way mark and dropped behind the more experienced Wilson when he lost the 22nd. He regained his margin with victories on the 24th, 25th and 27th holes.

Cherry closed out his match with MacGregor by winning the 34th with a birdie four.

Doe regained his three-hole lead at the 33rd hole and halved the 34th to win 3 and 2.

## No Sympathy Walkout by Coast Seamen

VANCOUVER (BUP)—Norman Cunningham, West Coast representative of the AFL Seafarers' International Union, said today that West Coast seamen were 100 per cent behind eastern seamen in their demands for higher wages and shorter working hours, but there would be no sympathy strike here.

Cunningham was commenting on the threatened strike of some 8,000 seamen who will take an SIU strike vote Monday to back demands for a 40-hour week and \$50 monthly pay boost.

"We definitely will not go out on a sympathy strike," said Cunningham.

### \$100,000 Fund Drive

VANCOUVER (CP)—The St. John Ambulance Association will open a drive for \$100,000 throughout B.C. Sept. 14. Mr. Justice John V. Clynne, association president, announced today.

## SHAMROCKS MEET PILS TONIGHT MINUS BOOTH

Victoria Shamrocks will be without the services of high-scoring centre Larry Booth tonight when they open a seven-game series with Vancouver Pilseners for the Inter-city Lacrosse League championship.

Forced to miss the last two games of the semifinal series with Nanaimo Native Sons, Booth has been troubled with a severe stiff neck and muscular pains. X-Rays taken today failed to discover the nature of his ailment but it was decided to rest him for this first game at least. His place in the starting line-up will be taken by rookie Al Gill.

## FBI Spring Trap on Two Reds in Remote Hideout

SAN FRANCISCO (UP)—Two fugitive Communist party leaders were clapped behind bars today after FBI agents disguised as campers surrounded and trapped them in a remote mountain hideout in the high Sierras.

Four other persons were arrested for harboring fugitives, and the federal agents, reluctant to discuss how the trap was laid, said "we've got five other Reds to track down."

The top Communist party leaders, wanted on charges of plotting to overthrow the government, were disguised with dyed hair, mustaches and crew cuts when the FBI surrounded their well-appointed, comfortable cabin near Sonora, Calif., Thursday.

Robert G. Thompson, 38, one of the top 11 American Reds concealed underground by the party since his conviction on Smith Act charges four years ago, was held in Alcatraz Prison.

Sidney Steinberg, also 38, a second-string Red leader who had been evading arrest since June, 1951, when 21 Communist organizers were indicted for conspiracy, was in San Francisco county jail.

Three other persons, charged with harboring the two fugitives in a cabin two miles north of the California summer resort of Twain Harte, were in jail with Steinberg.

All five were arraigned before U.S. Commissioner Joseph Karsh here Thursday night less than nine hours after they were caught in the well-laid FBI trap. Almost simultaneous with the arraignment of the five here, other FBI agents were arresting a sixth person implicated in the huge Communist cover-up.

A woman identified as Patricia Blau, 42, alias Janet Conroy, was stopped as she drove her car from Modesto to Stockton, Calif. The FBI said her car "had been used" recently by the two fugitive Red leaders.

The woman, who also uses

six other aliases, was held in San Joaquin county jail at Stockton. She was to be arraigned later today on charges of harboring fugitives. The FBI said Mrs. Blau, who was active in the Communist Party in Bangor, Me., in 1946 and in Colorado from 1948 to 1950, was believed to have been living in San Jose, Calif., recently.

The FBI said she "definitely" was involved with the Reds trapped in the mountains. Nearly a score of FBI agents, unshaven and dressed as campers, swooped in on the mountain retreat near Sonora in California's Tuolumne County.

### TOO CLOSE TO BE COMFORTABLE

## Train Roars Over Brave Signalman and Baby Boy

BRISTOL, Eng. (Reuters)—Two-year-old Adrian Grant crawled onto the railroad track near here Thursday two minutes before the Bristol-Cardiff express was due.

In his signal-box nearby, Colin Lovemore, 34, frantically flashed a "stop" to the onrushing train.

But the express was already past the red warning light. He dashed out of his tower and sprinted 150 yards to where the youngster lay. By then the express was roaring round the curve scant yards away.

Lovemore leaped on the child and fell between the tracks clutching Adrian tightly. He lay motionless while the express thundered over his head at 45 miles an hour.

"It was too close to be comfortable," Lovemore said. "It was touch and go who would get their first, the train or me."

As he carried Adrian back to his signal box, the baby gurgled "choo-choo."
